

STATE PARK HAS BEEN PURCHASED

COMMISSION HAS SECURED OP-
TIONS ON DEVIL'S LAKE
PROPERTY.

OVER A THOUSAND ACRES

Comprises the Tract Already Secured
and the Cottagers Will Give Up
Property for Perpetual
Lease.

(SPECIAL TO THE GAZETTE)

Madison, Wis., July 8.—A state park comprising the choice part of the beautiful Devil's Lake area, has been secured through the Wisconsin State Park board, said Chairman Hittingham today. The board has acquired 1,100 acres of land contiguous to the famous Wisconsin lake, comprising all of the ground around the lake except 75 acres, which will have to be condemned.

The comparatively small area of ground occupied by summer cottages has not yet all been acquired. There are about thirty-one cottages, but most of these, if not all of them, have already agreed to freely give their property to the state, taking in exchange only a lease thereon. This arrangement is acceptable to the park board.

The members of the state park board are: T. E. Hittingham of Madison, chairman; L. C. Colman of La Crosse, and Dr. E. C. England of Ephraim.

MAY IDENTIFY THE MYSTERIOUS THIEF

Stole Three Hundred Dollars and
Then Wrote That He Needed It
—Writing Is Known.

Viroqua, Wis., July 8.—Mr. and Mrs. Tolles Hoverson, who were robbed by some mysterious burglar of three hundred dollars, have received a letter signed "Burglar," in which he says he took the money because he needed it. The letter is in the hands of a handwriting expert for the Seven sons believe they recognize the hand writing.

CHERRY CROP WILL NOT BE A FAILURE

Sturgeon Bay Announces That It Will
Have Plenty of the Fruit
This Summer.

Sturgeon Bay, Wis., July 8.—The cherry crop, thought to have been ruined by frost, is unharmed. Picking began today.

FARMERS EXPECTED TO TAKE THE STOCK

Mass Meeting of Farmers Near Viro-
qua to Boost the Proposed
New Railroad.

Viroqua, Wis., July 8.—A mass meeting will be held the night of July 10 at farmers along the proposed right of way to discuss assisting the construction of a new railroad from Viroqua to West Prairie and return. The farmers are expected to take considerable of the stock.

FARMER'S WIFE MADE AN ATTEMPT ON LIFE

Because Her Husband Stayed in Town
too Long—She Took Dose of
Paris Green.

Hillsboro, Wis., July 8.—Mrs. Frank Killian tried to commit suicide by taking Paris green, because her husband failed to return on time from a visit to town.

MANY WERE INJURED AS TRAINS CRASHED

Accident Near Winnipeg, Canada, In-
jured Many Passengers This
Morning.

Winnipeg, Canada, July 8.—The Oak Park local crashed into a street car, killing three persons and injuring many last night. The two cars were completely wrecked.

FOREST FIRES WERE PUT OUT BY RAINS

Town Thought Certain to Be De-
stroyed by Flames Was Saved
by Change of Wind.

Washburn, Wis., July 8.—Yesterday's rains have put out the forest fire in this county. Cornucopia, which was abandoned by the settlers, was saved by a change of wind and the rain.

Town Burned.
Duluth, Minn., July 8.—It is feared that three lives were lost in a fire that threatened to destroy the town of Duluth. A woman and two children have been located.

Rain Quenches Flames.
Cumberland, Wis., July 8.—A six hours' rain today extinguished a forest fire fifteen miles from the city, which was threatening the summer resorts on Moushon lake and which had already destroyed a large amount of standing timber.

Bad Fire Near Neenah.
Neenah, Wis., July 8.—A bad fire is raging along the Soo Line right of way between here and Neenah. Every section hand from Neenah to Stevens Point is fighting the flames.

WISCONSIN TOWN TO BE FIRST TO BUILD MUNICIPAL THEATRE

Spring Valley, Wis. Plans Play-house
and Hall Where Farmers May
Gather at Any Time.

Madison, Wis., July 8.—Spring Valley is about to build the first municipal play-house in the country. The Madison Rock bank has taken the \$5,000 bond issue made for the purpose of erecting the house and work will be rushed so that it may be in operation by winter time. Business men plan that farmers and others shall have the privilege of using the building at all times as though it were their own. The projectors expect to get large returns in the way of increasing the town's popularity.

REPORTS ON CROPS CAUSES EXCITEMENT ON CHICAGO CHANGE

Sensational Figures in Government
Report Starts Rise in Bidding
But Close Is Steady.

Chicago, July 8.—The traders, excited by yesterday's sensational crop figures, bid all options up 3 1/2 to a half today. Later selling forced the prices back a cent.

Later on the huge profit taking prices receded some and the close was steady.

SPARKS SET FIRE TO "DOPE," MAN BURNED

Fond Du Lac Man Painfully Burned
When Spark Set Fire to Medicine
In His Pocket.

Fond Du Lac, Wis., July 8.—While lighting his pipe a spark from the match burned through his trousers pocket and set fire to medicine which John McCaden had purchased as a throat remedy. Painful burns were inflicted.

AMERICA NOT LAND OF PROMISE SOUGHT

Mrs. Emily Schmidt And Daughter,
Lured To America By Promises
Of Fortune, Must Return To
Germany.

San Clara, Wis., July 8.—Mrs. Emily Schmidt a widow and her twelve year old daughter, have been deported to Germany, which they left last April, to seek the fortune they were told could easily be gained in this land of promise.

DEATH CAUSED BY PTOMAIN POISON

Mrs. Otto Schwenke of Manitowish
Died After Partaking of Canned
Tomatoes.

Manitowish, Wis., July 8.—Ptomain poisoning said to have been contracted from eating canned tomatoes, caused the death of Mrs. Otto Schwenke.

RAINFALL IN IOWA WORTH A MILLION

Des Moines, Iowa, July 8.—Rain, characterized by Dr. Chappell of the state crop bureau, as the "million dollar rain," is falling today over northern and western Iowa.

SCORE PROSTRATED ON RECORD HOT DAY

PIONEER GRAIN TRADER
NELSON 80 YEARS OLD

Chicago, July 8.—Murry Nelson, one of the pioneer grain traders of the west and a leading citizen of Chicago half a century, celebrated his eightieth birthday today. Mr. Nelson was born in Oswego county, New York, in 1830 and came to Chicago as a young man. He was one of the earliest members of the Chicago board of trade, paying \$5 for the membership in that organization which he sold for \$3,300 when he retired from business several years ago to enjoy his ample fortune.

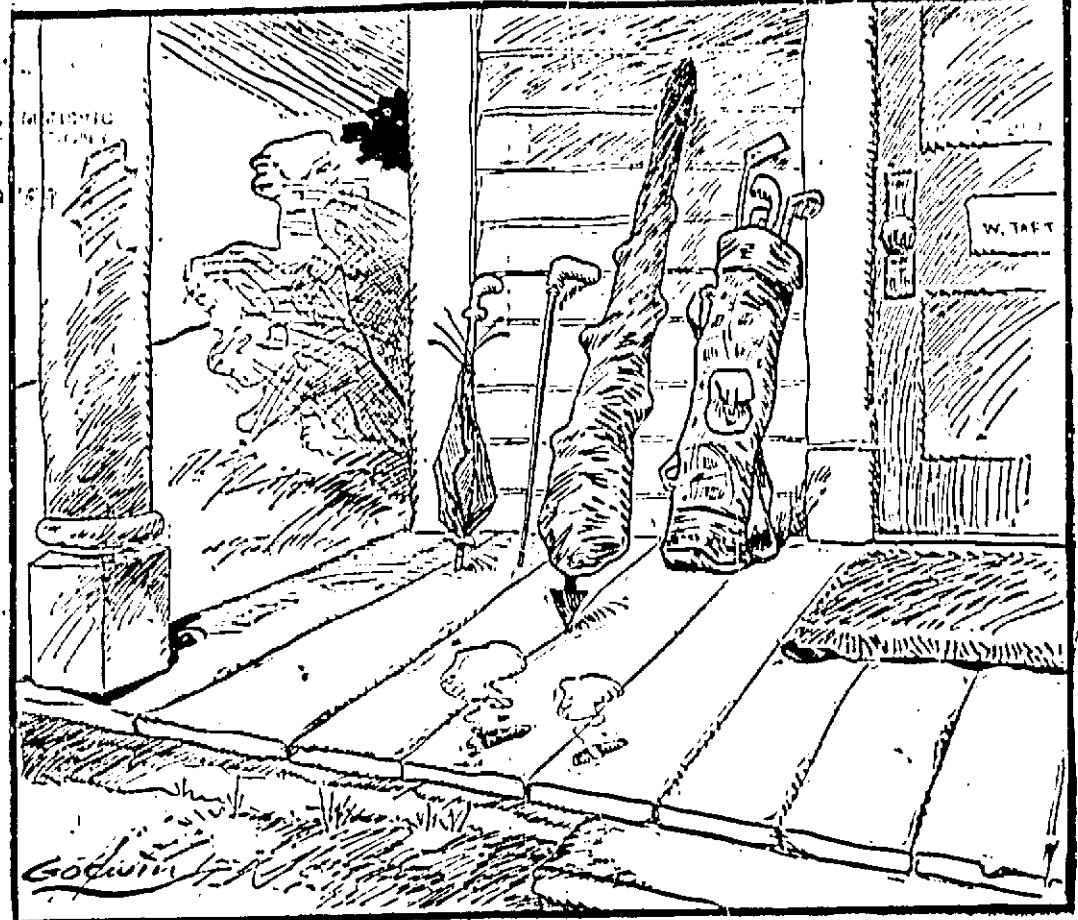

MILTON MAN FELL FROM A HAY STACK AND BROKE RIB

George L. Shumway Victim of Acci-
dent, His Side Striking Against
Handle of Fork.

Milton, July 8.—Geo. L. Shumway said, A crowd gathered and somebody elated Thursday. He fell from a hay stack, struck his side on a fork handle and broke a rib.

E. A. Holmes is dangerously ill with inflammation of the bowels.
Mrs. Moshon of Madison is visiting Mrs. A. L. Lee.

Miss Lora Oursler of the Dinn, Bess company, is enjoying a vacation at her old home in Nortonville, Kan. Miss Oursler is enjoying a visit at Nortonville, Kan.
Frank Aldrich of St. Louis called on his uncle, J. R. Tracy, on Thursday.
Mr. Stedhoff, late of Alfred, N. Y., has moved to this village and has rooms in the Miles Rice house.

OUTSIDE THE SUMMER CAPITOL MOST ANY DAY.

JEFFRIES WANTS TO FIGHT HIS VICTOR

Will Ask For Another Go With John-
son When He Returns From
Hunting Trip.

New York, N. Y., July 8.—A Los Angeles dispatch contains information, said to be from reliable source, that Jeffries is credited with declaring he will ask for a return match with Johnson within six months following his return from a hunting trip.

Jim Jeffries denied today that he had been dragged before his fight with Jack Johnson. He said: "I simply think it was the negro's superior punching that got me and put me out."

Sports are Skeptical.
Sporting men are skeptical regarding the report that Jeffries will challenge Johnson for a return match. Jeffries expressed the belief that he would make a much better showing in a return match, and this probably gave rise to the report that he would seek a match. In reality Jeffries has little intention of returning to the ring. Some friends, however, are already starting a clamor for another fight with Johnson.

NEW YORK AGAIN IN THE TROPIC'S BELT

Deaths and Heat Prostrations Report-
ed From the Metropolis of the
United States.

New York, N. Y., July 8.—The tropical heat wave continued today. Early this morning there were three deaths and numerous prostrations reported.

PRESENT TROUBLE IS THOUGHT TO BE OVER

Double Killing at Newark, Ohio, Has
Sobered the People so No Riots
Are Expected.

Newark, Ohio, July 8.—It is not believed that further trouble will follow the lynching last night of Detective Etherington and the previous killing by the detective of former Chief Police Howard. "The double tragedy has sobered the people."

Adjutant General Weybrecht, says the Jackson county officials, partly early Sheriff Lucke, were responsible for the lynching of Etherington. "The lynching could have been prevented," says the General. Fully five hundred people who aided in the hanging faced a grand jury investigation.

SENATOR HUDNALL SEEKS NOMINATION

State Senator From Superior An-
nounces Candidacy for Nomina-
tion as Lieutenant Gov-
ernor.

Superior, Wis., July 8.—State Senator Hudnall of Superior today announced his candidacy for the nomination for lieutenant governor on the republican ticket.

JANESVILLE TEAM WILL PLAY MONROE "MAJESTICS" SUNDAY

Cassey and Ward's "Athletes" to Cross
Bats With Fast Team
Tomorrow.

Tomorrow afternoon, the Janesville "Athletes" Cassey and Ward's fast semi-pro team, who have been unable to play at home because of the lack of grounds for Sunday pastime, will meet the Monroe "Majestics" at the bat. Smith and Hall will form the battery for the locals which practically assures a victory for the "Athletes" although Monroe has signed several of the defunct Dixon, Ill. team.

Overcome By Heat.—While working on a way freight between this city and Chicago last night, J. P. Mah, a North Western brakeman, was overcome by the heat. He was brought to this city and taken to his home where he later recovered.

TORONTO AVIATION MEET IN PROGRESS

Many Notable Entries for the Flights
Over Lake Ontario During
Coming Week.

Toronto, July 8.—Distinguished by flights over Lake Ontario, and with a notable field of entries in all its widely varied events, a great international aviation meeting was opened in Toronto today and will continue through the coming week. The list of participants is headed by Comte de Lesseps, the winner of the cross-channel contest, and W. R. Brookings, holder of the record for height in aeroplane flights.

DROPPED FROM SKIES AND IS NOT INJURED

Daring Aviator Lands in River—Mach-
ine Damaged But He Is Only
Shaken.

Newbury Port Mass, July 8.—Dropping seventy five feet, A. L. Pittzer landed with a Burgess bi-plane in Plum Island river today. He was severely shaken up and bruised. The machine was wrecked.

Bethany Plain, July 8.—Mamet established a world record of carrying two passengers at the aviation meet today. He flew 57.50 miles in an altitude of 164 feet.

Auburn made a new distance record with a single passenger of 52.74 miles. In one hour, 27 minutes 33 seconds.

LODGE OPENED HIS HEADQUARTERS TODAY

Has Not For Years Had Any Trouble
in His Re-election Until
Now.

(BY ASSOCIATED PRESS.)

Boston, Mass., July 8.—Menaced in his position as United States Senator by Congressman Ames, Henry Lodge today, for the first time in years, opened a political headquarters here.

HOBBO DREW A GUN ON THE CONDUCTOR

And Struck Brakeman in Face With
Stone At Evansville Last Night—
Captured and Brought Here
Tonight to the Gazette.

Evansville, Wis., July 8.—When Conductor J. R. Deane of Baraboo, in charge of the No. 557 northbound freight over the Northwestern road, attempted to put a hold on the cars near Evansville about nine o'clock last evening, the ugly customer flashed a revolver and razor and threatened his life. The conductor did not further interfere. When the train came to a stop Brakeman Edward Hoffman drove the fellow away and was struck in the face with a large stone. Marshall Cal brought him the tramp, who gave his name as Peter Murphy of Kankakee, Ill. Acting District Attorney Oursler and C. & N. W. Detective A. R. McCarthy of Chicago arrived here this noon to investigate the case and in company with Marshall Broughton started for Janesville with the prisoner at two o'clock.

RAILROAD PASSENGER MEN WILL MEET AT MACKINAC

(SPECIAL TO THE GAZETTE.)
Mackinac Island, Mich., July 8.—Railroad passenger officials are planning a big gathering here next week, when three of the passenger associations will hold their regular meetings on the island. The organizations are the Western Passenger Association, the Central Passenger Association and the Northwestern Passenger Association.

HUNDREDS SUFFER UNDER THE DROLLING SUN IN CHICAGO TODAY, MERCURY REGISTERING 94.

Chicago, July 8.—One death and a score of prostrations were reported today as the result of the intense heat. It was the hottest day of the year. The temperature was ninety-four.

GREAT CLAY-BIRD SHOOT AT VIENNA

World's Championship Will Be Con-
tested for in International Tour-
ney Which Opens To-
morrow.

Vienna, July 8.—The world's championship at clay-bird shooting is to be contested in the international tournament which is to open here tomorrow in conjunction with the international hunting exhibition. Many of the noted marksmen of Europe have entered. The best result of a series of 100 birds shot at a distance of fifteen meters will decide the victory.

AFTER ICE CREAM SERVED IN CONES

Government Takes Steps To Prohibit
Sale On New York Recreation
Piers.

New York, N. Y., July 8.—The ice cream cone is the latest object of attack by the federal government. Today municipal health visited the pier pier seized 672 boxes of the conical conical receptacles for cream. The cones are alleged to be unfit for human consumption.

ITALIAN VENDETTA'S RESULT IN SHOOTING

Chicago the Scene of Final Chapter
in Story Begun in Far
Off Italy.

Chicago, Ill., July 8.—A vendetta which originated in Italy, many years ago, resulted in the shooting today of Leonardo Delcchia by an unknown man. Delcchia was sentenced in Italy for the murder of a fellow Italian, but escaped and came to this country. The murdered man's son followed him here and the police are now looking for the son.

PAY WAS HELD UP BY CENSUS AUTHORITIES

Working Girls' Society May Take
Steps to Compel Government
to Pay Employees.

Washington, D. C., July 8.—A bad tangle in the new piece work system of punching the population cards in the census bureau has resulted in a serious delay of the pay envelopes of several hundred girls and the working girls' societies here threaten to stir up trouble.

OLDEST ARMY OFFICER CELEBRATES BIRTHDAY

(SPECIAL TO THE GAZETTE.)
Washington, D. C., July 8.—Lieut. Col. Frank Bridgman, who has the distinction of being the oldest officer on the retired list of the United States army, will be ninety years of age to-morrow. He was retired for age in 1881 and has resided the most of the time since at Colorado Beach, Cal.

CENTENARY OF TOOMBS THE GEORGIA STATESMAN

(SPECIAL TO THE GAZETTE.)
Atlanta, July 8.—The local historical societies have arranged for an observance tomorrow of the centenary of Robert Toombs, the famous Georgia soldier and statesman, who was born July 10, 1810. Mr. Toombs represented Georgia in Congress for many years, resigning his seat in the senate at the beginning of hostilities between the North and South. After quitting the United States senate he became secretary of state in the cabinet of President Davis and also saw active service in the field.

JAPANESE SCHOONER WAS SEIZED IN BERING SEA

(BY ASSOCIATED PRESS.)
Valdez, Alaska, July 8.—A Japanese sailing schooner and crew numbering thirty-eight, was seized June 28th in Bering sea, by the revenue cutter "Tahome."

NEW YORK MARKET FLUCTUATIONS DUE TO LATE REPORTS

Prices Take Sudden Turns This Morn-
ing When Government Report
Is Learned.

(BY ASSOCIATED PRESS.)

New York, July 8.—The selling movement which started after the publication of the government crop report yesterday, continued at the opening of the stock market today, but after the first fifteen minutes a vigorous rally started. The crop report department of agriculture showed the condition of estimates of acreage condition on July 1st. Corn planted, 14,083,000 acres, an increase of 5,112,000 acres or 4.9 per cent compared last year's final estimate.

Average condition of corn is 85.1 as compared to 85.1, the ten year average. The amount of wheat remaining on farms, 28,730,000 bushels, compared 28,705,000 to the ten year average. The average condition of winter wheat is 81.5 as compared with 81.3, the ten year average.

Spring wheat, 61.6, as compared to 87.1, the ten year average.

Spring and winter wheat combined, 73.5, as compared to 81.0, the ten year average.

The oat crop, 82.2, as compared to 86.6, the ten year crop.

EYES ON BEVERLY AND OYSTER BAY

Political World Will Be Watching
President Taft And Col Roosevelt
During Coming Week

(SPECIAL TO THE GAZETTE.)

Washington, D. C., July 8.—So far as the national capital is concerned, items of live news promise to be as scarce during the ensuing seven days as the proverbial hen's teeth. The extreme heat seems to have driven all officialdom to seek relief at the seashore or in the mountains. The President, the cabinet, members of Congress and heads of the various departments—all have left town, and for the time being the machinery of government is allowed to come almost to a standstill.

The political world will probably keep one eye on Beverly and the other on Oyster Bay, though there is no reason to suppose that any "big" news will emanate from either point during the week. Golf tournaments and yachting will absorb the attention of President Taft, while Col. Roosevelt is expected to follow the routine of work and rest which he has pursued since his arrival home from Europe, which has been interfered with only by his recent brief trip to the Harvard commencement.

The political campaigns will buzz along in Georgia, Texas, Michigan, California and other States where primary elections are soon to be held. The Republican party of Alabama is to hold a State convention in Birmingham Thursday to name a ticket to oppose the Democrats at the general election this fall. Another political convention will be that of the Democrats of North Carolina, who will meet in Charlotte to complete plans for the coming campaign.

The Pan-American Congress, the fourth of a series of great conferences that are steadily strengthening the bonds between the republics of the Western Hemisphere, will continue its sessions in Buenos Ayres, the Argentine metropolis where the delegates have already assembled from the United States, Mexico and the countries of Central and South America.

The fate of the present Conservative government in Manitoba, which has held office continuously under Premier Rodin for the past ten years, will be decided by the Provincial elections to be held Monday. The campaign has been very keen on the side of both parties. The government's elevator bill and the extension of Manitoba's boundaries are the chief issues of the contest.

The Polish population of America will unite with their people across the water in the celebration next Friday of the one hundredth anniversary of the battle of Grunewald, in which the forces of Poland destroyed the power of the Teutonic Knights and placed their territories at the mercy of the Poles and their allies.

Thousands of members of the Benevolent and Protective Order of Elks from all over the United States and Canada are gathered in Detroit for their forty-sixth annual convention and grand lodge reunion. The session of the grand lodge will begin Tuesday and continue through the grand part of the week. The annual parade, which is the big spectacular event of the reunion, is scheduled for Thursday. It is expected that fully 100,000 Elks and their friends will attend the convention this year.

Pursuant to the call of Judge Landis, a special Federal grand jury will be convened in Chicago Thursday to renew the investigation of the packing companies, who are suspected of violating the Sherman anti-trust law.

The most notable wedding of the week will be that of Miss Priscilla Toland, daughter of Mr. and Mrs. Edward Hale Toland, and Gustav Griswold Bacon, son of the American Ambassador to France, and Mrs. Robert Bacon. The wedding is to take place Saturday at Aubrey, the country place of the bride's parents at White Marsh, Pa.

The notable conventions of the week, in addition to the gathering of the Elks before mentioned, will include the international convention of the Baptist Young People's Union at Saratoga, the annual conference of the Northwestern Norwegian-Danish Singers' association at Sioux Falls, the convention of the Upper Mississippi River Improvement association at St. Paul, and the summer meeting of the American Chemical Society in San Francisco.

PAN AMERICAN CONGRESS MET

FOR INITIAL SESSION AT BUENOS
AYRES TODAY.

FOURTH SESSION OF KIND

Deliberations Are Expected To Bring
Forth Results Of Far-Reaching
Importance.

(SPECIAL TO THE GAZETTE.)

Buenos Ayres, July 8.—Results of great importance and lasting benefit to the United States as well as to the Latin-American republics are expected from the fourth Pan-American Conference which met here today in an informal manner for the preliminary work of receiving the credentials of the delegates and receiving them in behalf of the Argentine government. Delegates from the United States, Mexico and practically all the other Central and South-American republics are in attendance and the list contains the names of some of the most distinguished statesmen, diplomats and experts in international law of the countries represented.

The delegation representing the United States, which arrived here in the U. S. army transport Sumner a few days ago, consists of Henry T. White, former ambassador to France; Lewis Nixon, the ship builder; John Russell Moore, Professor of International Law at Columbia University; David Milley, Dean of the University of Illinois; Bernard Moses, Professor of Political Science at the University of California; Col. Elmer Crowl; assistant to the Judge Advocate General, U. S. A.; Paul S. Reineck of the University of Wisconsin and James C. Quintana, an editor at New Orleans. Prof. Shepherd of Columbia University accompanies the delegation as official secretary. Among the special representatives of the government is Edward B. Moore, commissioner of patents, who will act as expert attaché.

The program of the conference, which has been previously prepared and agreed upon by the representatives of the various governments interested, includes a practically complete survey and consideration of the international relations, political, commercial and otherwise, between the republics of the American continent. Immediately after the permanent organization of the conference exercises will be held in commemoration of the Argentine national centenary and of the independence of the Latin American republics.

The actual work of the conference will begin when the various delegations submit their reports concerning the action of their respective governments upon the resolutions and conventions of the third Pan-American conference held at Rio de Janeiro in July, 1906. The reports will be discussed and the extension of the functions of the committee considered. The report of the director of the International Bureau of the American Republics will also be given careful attention and it is expected that a resolution expressing appreciation to Mr. Andrew Carnegie of his generous gift for the construction of the new building of the American Republics in Washington will unanimously be passed.

Reports will be made on the progress which has been made in bringing about the completion of the Pan-American railway since the conference at Rio de Janeiro and the question will be considered how best to bring about cooperation with that end in view. The program also contemplates the discussion of various other matters among them the establishment of more rapid mail, passenger and express steamship service between the American republics; the bringing about of uniformity among the American republics in consular reports and documents, the technical requirements of customs regulations and also in census and commercial statistics; questions of sanitary police and quarantine regulations for the elimination of preventable diseases; the bringing about of an understanding between the American republics covering patents, trade marks and copyrights; continuance of the treaties on pecuniary claims after their expiration; promoting the interchange of professors and students among the universities and academies of the American republics; united action for the conservation of natural resources; supervision of the food supplies in the different republics and the adoption of some regulations concerning wireless telegraphy and aerial navigation.

Throughout Central and South America the importance of this congress is generally recognized and a great deal of good is expected from this fourth of the conference. The first, which was originally suggested by President Arthur, was held in Washington in 1889; the second in the City of Mexico in 1902 and the third at Rio de Janeiro, in 1906. The Rio de Janeiro conference was attended by Elton Root, the Secretary of State, and proved far reaching in the effect of bringing about closer relations and a better understanding between the United States and the Latin-American republics. It is expected that the conference, in addition to the subjects included in the program, will consider many matters of international interest, among them a proposition to bring uniformly into the standard bills of the various countries on the American continent.

COLORED CLUB WOMEN MEET AT LOUISVILLE

(SPECIAL TO THE GAZETTE.)
Louisville, July 8.—Several hundred delegates and visitors have arrived in the city to attend the annual convention of the National Association of Colored Women's Clubs. The meeting, which will continue its sessions, through the greater part of next week, promises to be the most successful in the history of the association. Numerous questions pertaining to the uplift of the negro race are scheduled for discussion.

HALL & HUEBEL

Snake in a Beer-Barrel.
A party of foreigners tapped a keg
of beer at Lake Atchewa, Pa., but
could not get the fluid through the
spigot. Investigation disclosed the
fact that the bung-hole was stopped up
by a snake. The reptile must have
crawled into the keg while it was ly-
ing empty on the ground, and was
drowned when the beer was filled.

Elgin, Ill., July 6.—Butter firm at 27 1/2¢. Output for the week, 1,098,300, lbs.

EDGERTON.
Edgerton, Wis., July 9.—Kimmott Covell of Waterloo, Iowa, is visiting at the home of Mr. B. Wilson.

Walter Koutas and wife of Huron, N. D., are visiting at the home of his sister Mrs. Emma Lyons.

Helen Conn spent yesterday in Janesville.

Miss E. Sewell will spend the next few days in Madison.

BARKER'S CORNERS.
Barker Corners, July 9.—Mr. and Mrs. G. Olson and daughter of Madison, are spending the week at T. Knudsen's.

A. G. Russell is building a large barn on his farm.

Mrs. C. Davis of Janesville visited in this vicinity a few days the first of the week.

Mr. and Mrs. W. F. Wright, Mr. and Mrs. C. H. Shoemaker, Mr. and Mrs. Chas. Davis and L. J. Caldwell, attended a party at the home of W. Bradley at Fulton Thursday night.

Dr. and Mrs. Michaelis and Mrs. W. Conrad of Janesville, visited Mr. and Mrs. T. Knudsen Thursday.

Anna Dilor of Chicago is spending a few weeks at the home of F. Mc Dermott's.

Ella Shoemaker is attending summer school at Whitewater normal.

S. Craig and family and Mr. and Mrs. Geo. Simmons and son, spent the Fourth at Milton.

Deposit of Soda in Uganda.
A deposit of soda has been found at the foot of the projected line of the Uganda railway. It is described by the discoverer as being a lake about ten miles long by two or three miles wide. The water is only a few inches deep and covers a hard surface of soda resembling pink marble. The soda was found to be of considerable depth.

Old Connecticut Milestones.
In Old Lyme, Conn., is one of the celebrated Franklin milestones which in 1778 saw Washington pass into Lyme on his way from Cambridge after the British had evacuated Boston. Franklin measured the miles by a machine of his own invention, attached to his carriage, the ancestor of our cyclometer.

PLAY-BALL.—See ad elsewhere.

RESPECTED RESIDENT OF
NEW GLARUS PASSED AWAY

Peter Strieff, Who Has Been Living With Sons on Farm, Died Yesterday Morning.

[SPECIAL TO THE GAZETTE.]
New Glarus, July 9.—Peter Strieff, who has been suffering with a lingering illness, passed away yesterday morning at nine o'clock. Mr. Strieff was seventy-six years of age, born at Glarus, Switzerland. He lived for a number of years past with his sons, Peter and Fred, on a farm north of town. He was a man prominent in church and social circles and the very highly respected. Besides the two sons, three daughters—Mrs. Jake Piel, Mrs. John Blum and Mrs. Harold Stevens—are left to mourn his loss. The funeral will be held at two o'clock tomorrow afternoon.

Mr. and Mrs. Henry Bahler, who were visiting with Mr. and Mrs. Tom Hefty over the 4th, returned to their home at St. Louis, Mo., on Wednesday.

Mr. and Mrs. S. H. Luchsinger returned home after a three-weeks' visit with relatives at Antigo, Wis. The halls were filled with people on Monday evening, July 4th. Good music was rendered in both halls.

Markus Hoesly and John Schuler were at Milwaukee on Monday. Mrs. Johanna Will returned to her home at Milwaukee after a few days' visit with relatives here.

The annual report of the Citizens' bank is being up rapidly. This will be the finest also in town.

Misses Alma Ott and Clara Hoesly were Monticello visitors on Wednesday.

Ready Kumbert has purchased a fine 5-passenger Wilcox automobile.

Mr. and Mrs. Henry Z. Duerst are visiting with relatives at Eau Claire at present.

Miss Appolonia Marty, Bertha Strieff and Florence Jardi are attending the training school at Brookfield.

Mr. and Mrs. J. C. Blmer of Monroe, are visiting with friends and relatives here at present.

The work of the condensing factory is well under way, at present they are laying the railroad track.

R. E. Bartlett went to Milwaukee again to finish his examinations in pharmacy.

BRODHEAD.

Brookfield, July 9.—Mrs. M. S. Twining, who has been seriously ill for some time, passed away last evening between six and seven o'clock. No arrangements for the funeral have as yet been made.

Miss Myrtle Chyngott went on Friday to Willmott, Illinois, for a stay with friends.

Mrs. Chas. Banks and daughters, Mercedes and Gretchen, left Friday for their home in St. Paul, after a visit of some weeks at the home of Mr. and Mrs. J. A. Broughton.

Medames M. D. Bartlett, A. H. Baxter and Chas. Banks, spent Thursday with Monroe friends.

Rob Brown left Friday afternoon for Mitchell, South Dakota, where he expects to make his home for the present at least.

Claud Roderick was a Madison visitor on Friday.

Mrs. Lizzie McDaniel of Janesville is the guest of her parents, Mr. and Mrs. W. L. Blair.

Miss Zella Cassell of Oxfordville, spent Friday with Brookfield friends.

As a precaution against fire the city authorities will the streets, plays and buildings with the fire hose on the business portion of the city on Friday.

Dr. Dury is having a fine new launch built. Also a boat house to keep it in. W. W. Douglas has a new launch and boat house also, both launches having been built by A. E. Holliday.

The funeral of Mr. M. M. McNair took place at the home today at one o'clock, conducted by Rev. Jensen of the Presbyterian church. The pall bearers were: Messrs. Burr Sprague, J. H. Oliver, W. W. Roderick, A. N. Randall, C. J. Stephenson, and A. S. Moore and the interment was in Greenwood cemetery.

Parasites of Insects.

Since the Dutch philosopher Leewenhock discovered that the pupa of the flea was sometimes preyed on by the larva of a mite, it has been well known that various small insects have their external parasites.

DAILY DIET HINTS

By DR. T. J. ALLEN
Food Specialist.

COLDS AND HOW TO AVOID THEM.

"Catching cold" is not entirely dependent upon atmospheric changes. In cold, dry air, taking much exercise, one will contract cold less easily than in warmer moist air, taking little exercise. The condition of the blood is the essential factor. When the blood is overloaded with poisonous waste, due to overeating, especially of "rich" foods, and little exercise is taken, there will be a tendency to cold. Hence constipation is the most efficient prime cause of cold, because that tends to maintain a condition favorable to its development. Lack of bathing, by closing the pores which eliminate waste, and constant "coddling," which destroys the capacity for ready adjustment to changes of temperature (favorable to cold), are the essential symptoms in cold, is favorable to cold taking. Avoid overeating, exercise freely in the open air, bathe regularly, including tepid or cold water, daily, but avoiding extremes, avoid constipation, worry and exhaustion and undue exposure to chills and damps, but get all the fresh air and exercise possible. Stop eating for 24 hours, drink plenty of cold water, exercise freely in the open air, take a vapor bath and a morning friction bath—these are the natural remedies.

(Copyright, 1910, by Joseph B. Bowles.)

LESSON IN FARMING

Thirty Tons of French Garden to Be Transported.

Plants Undisturbed While Earth Surrounding Them Is Removed From Reading to Birmingham Farm Demonstration.

London, Sunday.—Thirty tons of French garden, heavy with plants as well as "golden soil," are being removed from Reading to Birmingham.

The garden, which stood in a corner of Messrs. Sutton's trial ground "at Reading, is the best educational model yet seen. In its new site in Warley park, close to the bandstand, it will cover a strip 160 feet in length, and a good three days' work will be spent in setting it up, and, so to speak, naturalizing it. The garden will be opened by the lord mayor and lady mayors of Birmingham, who were originally interested in the scheme by Mr. Chance—like his cousin, Sir Joseph Chance, one of Birmingham's notable benefactors.

The model is described as "educational," designed to "demonstrate the continental system of intensive cultivation," and as a demonstration it is not less changing than it is educational.

Everything is to be transferred just as it is, and not one plant of the many thousands will be disturbed. The frames and cloches and open patches of ground are to demonstrate the growth and progress of French gardening as well as the results; and for this reason all the spectators will follow one path in one direction, so that they may pass with the explanatory lecturer, as it were, from February to November.

First, they will see a bed in the making, one part piled with soil and frame. Next comes a row of frames in which three crops are growing cheek by jowl—lettices, carrots and radishes. This is succeeded by a row in which four crops are growing together, the fourth being cauliflower.

From the frames you pass to the cloches under which the seed is first sown, making a close green mat. Next are the cloches where these seedlings are pricked out at even distances, showing how the cloches faced the frames. At this stage the first part of the year is completed. The succeeding beds and frames illustrate how the soil is used yet again for the later part of the year.

This is perhaps the most novel and interesting part of the demonstration. The variety is most striking. One of the late beds is filled with cabbages, between which again is a double crop of radish and onion. These cabbages, though they have only been in the ground six weeks are already as big as cabbages which were planted last November. Five months have been saved.

Other frames and cloches contain peas which are already in pod, strawberries which are just ripe, tomatoes in flower, and melons just beginning to set.

TROUBLE FOR CENSUS TAKER

One in State of Washington Mistaken Man's Wife for His Mother and Rums for His Father.

Walla Walla, Wash.—Some curious information was gathered by the census enumerators in those parts. One found a gray-haired woman who had been married three times and had several grandchildren, but who insisted on being called "Miss."

Another enumerator mistook a man's wife for his mother, and barely escaped dire consequences. It developed that the husband was fifty-one years old the wife eighty-seven, and that the man had been married four times. This last fact was elicited with difficulty, and precipitated a family row, as the husband had told his spouse that he had been bound in holy wedlock only twice.

Several families of sixteen children have been discovered. In one of these the oldest child is about nineteen, and there are but two pairs of twins. One other man, ninety-two years old, was listed who "boarded" with his "boy," who is fifty-four years old, and from whom he had never been separated.

SNAKES CHANGE MAN'S VIEWS

Pennsylvania Farmer Puts His Hand Into Nest of Copperheads and Stops His Grumbling.

York, Pa.—Farmer William Tracey changed his notions about the weather when he reached into a nest of six copperhead snakes in removing an old stone fence, in Dover township, and promptly resigned from the Knockers' club.

Before the adventure of his hand Farmer Tracey's remarks at the East-mount village store were those of a weather pessimist. He opined that it was unseasonably cool and that crops would suffer if a hot wave did not soon come along.

However, it that particular hot wave for which Tracey had been looking had been there when he put his hand into the copperheads' nest, it is probable they would have been active enough to have made Tracey the hero of a different sort of reception. As it was, the six snakes were too sluggish from the chill to move with their summer alacrity.

Advertising is an insurance policy against forgetfulness. It compels people to think of you.

S. S. BENNER, Prop.
122 East Milwaukee St.

A Godsend.

An esteemed German who draws a well earned salary from the city of New York, says the Sun, was talking about a case of sudden death the other day. It was due to an accident. It was nobody's fault. It was a veritable bolt from a clear sky. All this had impressed the German deeply. "Vy," he said awesomely, "it was a regular Godsend."

Made with a Penknife.

Hiram Martin of Reading, Penn., with a pocketknife made two miniature boats, one a steamer and the other a canal boat, each nearly four feet long, and one year was devoted to the task, during spare moments.

Paint the Lowest Step.

Paint the lowest cellar step white if the cellar is dark. This plan may save a fall and will do away with feeling for the last step when going downstairs.

MURDERER MEETS DEATH BY A MOB

MOB STORMS NEWARK (O.) JAIL AND HANGS "DRY" DETECTIVE.

HAD KILLED A SALOONIST

Officers of Anti-Rum League Raid "Near Beer" Saloons in Which Man Is Shot and Dies Later—Then Trouble Begins.

Newark, O., July 8.—Battering down the doors of Licking county jail, a mob of women, men and children last night took Charles Etherington, an anti-saloon detective, who confessed to having shot and killed William Howard, saloon man and a former police man earlier in the day, hanged him to a telephone pole in the public square. The mob which had been increasing all evening at the jail became frenzied and refused to listen to pleadings for preservation of order.

Take Keys From Jailer.

They broke all the jail windows and rained in the outer door, taking the keys from the jailer. They quickly found the prisoner's cell on the second floor and then, dragged by a rope, the man was taken up Third street to the square and across the park to the southwest corner, where he was strung up over the arm of a telephone pole.

The shooting of Howard and the lynching of Etherington is the culmination of long standing trouble between the "wets" and "drys" here.

Etherington and twenty others, all said to be "dry" detectives, came here from Cleveland and other places to get evidence against "near beer" saloons. At the first place no trouble arose. At the second Charles Edwards, the bartender, was handcuffed for over an hour. At the third place visited the trouble started.

A mob of 2,000 gathered and threatened the detectives. With revolvers drawn the Anti-Saloon league officers retreated to a hotel. The police interfered there, arresting eight of the detectives.

At the police station, where they were searched, revolvers, black jacks and cartridge bolts were taken from them.

Saloonist Is Shot.

The remaining twelve detectives broke and ran, pursued by the howling mob. Half a dozen were caught and beaten. The police rescued most of them. A downtown crowd fell on James Henderson of Columbus, and beat him so severely that he was taken to the Newark hospital. Etherington, who fled to the ball park, stumbled in his flight and the crowd set upon him. Howard, the proprietor

of a "near beer" saloon, the mob pincered him by the detectives, was in front of Etherington when the latter drew a revolver and fired.

Etherington was hurried to the jail with a yelling mob at the heels of the police who were protecting him. All afternoon the crowd stormed about the place threatening to lynch the detective.

Crisis Is Reached.

The crisis came when word was flashed from the Newark hospital that Howard, who was a former city policeman, had died there of his wound. Up to this time Sheriff William Linke apparently had the situation well in hand. When it became known that Howard was dead an immense crowd gathered in front of the jail, the windows were smashed, the door battered in and Etherington dragged out and strung up.

Newark, which over a year ago was voted "dry," has "near beer" saloons which the Anti-Saloon league officials have in the past said they suspected of selling beer. Feeling has been high against the Anti-Saloon league for a long time.

Troops Are Called Out.

Since Etherington's arrest business has been suspended and the streets have been filled with people brandishing clubs and weapons and threatening vengeance. When it became known that Howard was dying all of the detectives except Etherington were split out of town.

During the afternoon rioting on a small scale occurred and a dozen persons were injured. Among the most seriously injured are Ed. Hale, detective, may die and Ed. Costello, known as "Oklahoma Ed," perhaps fatally hurt by a blow on the head.

Late last night the governor heeded the call of the sheriff for troops, and Adjutant General Weybrecht began mobilizing several companies of the Fourth regiment and will dispatch them to this city.

MRS. SHERMAN QUITS HOSPITAL.

Vice-President's Wife Goes to Mountains to Recuperate.

Baltimore, Md., July 9.—Mrs. James S. Sherman, wife of the vice-president, left Johns Hopkins hospital, and with the vice-president and her sister, Mrs. De Long, started for Big Moose lake, N. Y. It was expected that the change of the mountain air would complete her restoration to health. Mrs. Sherman was brought to Baltimore two weeks ago for treatment for a nervous attack.

On Record.

We desire to go on record right now as being of the firm opinion that a literary woman who wants to be loved should see to it that her flapjacks are the equal of her sonnets and her corned beef hash every bit as good, if not better than her essay on Browning.—Exchange.

PLAY BALL—See ad elsewhere.

PRESIDENT TAFT CALLS ON JUSTICE MOODY

Matter of Jurist's Retirement From Bench Is Not Discussed During Visit.

Beverly, Mass., July 9.—President Taft paid Supreme Court Justice William H. Moody an hour's visit at the latter's home at Magnolia. The president was accompanied by Capt. Archie Butt and drove from Beverly over to Magnolia in an automobile.

On his return the president said that he had found the justice not only resting comfortably, but able to receive friends. It was distinctly announced that the visit had nothing whatever to do with the suggested retirement of Justice Moody under the act of congress providing therefor, and it is declared at the executive offices that this matter was not discussed during the visit. For this reason no opinion was expressed by the president as to the possibility of the case.

President W. C. Brown of the New York Central railroad and Daniel L. Conso, a labor leader and editor of the Journal of the Brotherhood of Railway Trainmen, were appointed members of the commission to act with a congressional committee in investigating the employers' liability and workmen's compensation as provided for by recent act of congress. The commission will recommend to the president such legislation with regard to the two problems as seems necessary and desirable.

FALLS FAR WITH AEROPLANE.

Baroness De la Roche Loses Head at Approach of Other Aeronauts.

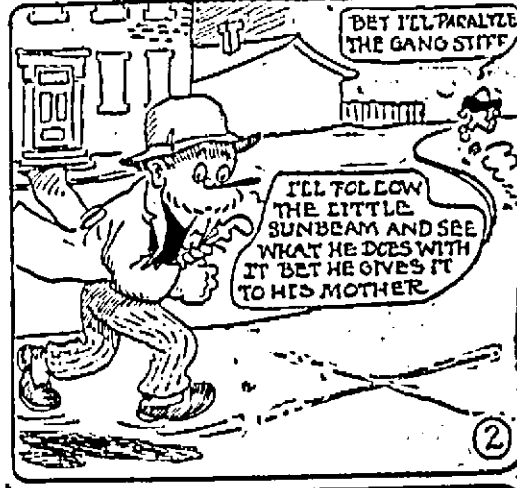

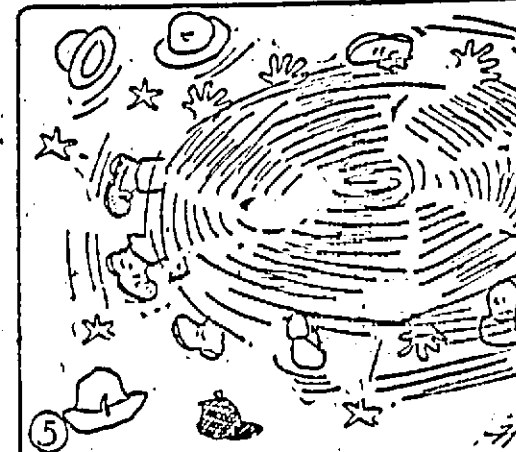

Batheny Plain, Rhineland, July 9.—Baroness De la Roche, the first French woman aviator, was injured probably fatally here by falling from a height of more than 150 feet.

Baroness De la Roche had flown around the field once at a height of 80 meters (250 feet), when suddenly in front of the applauding tribune she appeared to become frightened and confused at the approach of two other aeroplanes. She began to descend, but while still 50 meters from the ground lost control of the machine. The aeroplanes turned over and fell like a log.

The baroness' legs and arms were broken. Her mangled body was removed from the wreckage and taken to the hospital, where she is said to be dying. It was found that her skull was fractured.

While momentarily conscious the baroness said that the rush of air from a motor passing over her head and frightened her, whereupon she cut the ignition and lost control of her machine.

This is the second fatal accident at this meeting. Aviator Wichter, having been killed last Friday.

GRANDPA SCATTERGOOD.

Scheme to Sell Photos.

A man in the photograph business has a good scheme for selling his pictures. Every bright day he makes his headquarters at Riverside drive and Ninety-eighth street, where he snaps passing motorists. He takes a record of the license number, hunts up the owner, and if he was not in the auto party finds out who was. The sale of his pictures is an easy matter.—New York Sun.

Near English.

A true specimen of the Highlandman's difficulties with the English language: Farmer (who had instructed his Gaelic shepherd to look for a number of sheep that had wandered from the fold): "Well, Donald, have you found them?" "Aye, master." "Where did you get them?" "Well, I got two by myself, one together, and three among one of McPherson's."—London Daily News.

Treating Bruises.

In the treatment of contusions with extensive discoloration of the skin, if olive oil be applied freely without rubbing the discoloration will quickly disappear. Absorbent cotton may be soaked in the oil and applied. If the skin is broken a little borax acid should first be applied over the abrasion. A black eye thus treated can be rendered normal in a few hours, especially if the oil be applied warm.

STORES LIGHTED WITH GAS ARE PERFECTLY LIGHTED

This Is One of the Features That Impress Strangers Visiting Here and It Enters Largely Into a City's Greatness.

Gas is the perfect illumination for stores because it is most economical to use, and because it gives a better light for displaying goods of all kinds, especially of those goods where color is important.

No matter what size, or shape your show-room may be, we have the proper light for you, the one that will give an abundance of white light and at the same time is most economical.

HUMPHREY ARC LAMPS AND REFLEXOLIER WITH INVERTED LAMPS are used to best advantage in large stores where an abundance of white light widely diffused is desired.

The single Reflex light is used to best advantage in nooks and corners where a brilliant light is desired but not widely distributed.

The Welsbach Junior is one of the most economical lights in existence. It is small yet it gives three times the amount of light secured from an open flame burner. For hallways, basements, stockrooms, etc., this light is most efficient.

Talk with our lighting expert and let him suggest the proper lighting scheme for your business. Since July 1st the rates on gas have been reduced from 13% to 15%.

The Rates Now In Force Are:

First 2,000 cubic feet per month at \$1.30 per thousand
Next 3,000 cubic feet per month at \$1.15 per thousand
All in excess of 5,000 cubic feet per month at \$1.00 per thousand

10c per thousand cubic feet added to the above rates if bills are not paid within 10 days after date of delivery. Minimum bill of 50c per month.

OUR SATURDAY NIGHT.

"Tuesday night Lieutenant Shackleton told how he just missed the south pole.

A little more strength and equipment and the goal would have been won.

"The little more!" Momentous thought! It spells the whole difference between success and no success. It is the key to countless careers. It is the explanation of many mysteries.

"A little more patience, a little more strength, a little more persistence, a little more courage, a little more faith, a little more hope, and what a monumental difference it may make!"

"A little more charity, and what innocence remains unsoiled! A little more kindness, and what happiness it may give! A little more tenderness, and what consolations for the memory! A little more love, and what celestial miracles!"

"When the lack of the 'little more' is a man's own fault, it becomes the most pathetic tragedy of existence. When it is not, no one need blame himself. He can only lay his best—his Lieutenant Shackleton did—leaving the issue to the powers that wait on noble ends."

"Oh, the little more and how much it is!"

Someone said, not long ago, that the average tinner expends but 80 per cent of energy and ability, and so continues to be an average worker through life, as success, in any marked degree, is found in the 20 per cent of unexpended energy.

Whether this be true or not the fact remains that the disposition to shrink work and responsibility is a common weakness shared by the most of us.

Doing what we are paid to do, and nothing more, is the rule generally adopted, not only in the ranks of organized labor, but by the larger army of independent toilers free from restrictions, and unhampered by regulation.

The men and women who go to the front are in a class by themselves. They are in the minority because selected from the class who harvest the 20 per cent of reserve forces cheerfully and willingly, doing not only what they are paid for doing, but more, as opportunity offers, until they gain recognition and promotion in the world of commerce and industry.

When the late A. T. Stewart landed

in New York, a green Irish boy fresh from the Emerald Isle, he found work in the dinky shop of a linen merchant and his duties included taking down the shutters and keeping the place tidy.

He roomed in an attic close by and long before seven o'clock in the morning he strolled up and down in front of the store waiting for the place to be opened.

The days were too short to satisfy ambition and so his evenings were spent in study, and soon his ability attracted attention, and his willingness to work won the respect of the old man who employed him.

He went to the front by strides and bounds, and in a few years became the first merchant prince of the Manhattan city. The 20 per cent reserve fund was drawn on freely and liberal dividends secured.

The withholding of energy and ability, in the every day work of life is only one of many weaknesses displayed by humanity along this line.

There are mounds in the churchyard which would not be there had a little more of tenderness and thoughtful consideration been bestowed in the home.

We seldom fully appreciate our friends and loved ones until they are gone, and so remorse consumes us when it is too late.

Home life at its best demands 100 per cent of love and patience and the sacrifice which these graces inspire, and without this generous investment the place becomes a travesty dreaded by the children and endured by the father and mother.

From such homes many a boy has gone out to become a drifter and a failure, and many a girl to a life of shame and ruin, and all because the 20 per cent, which represents the surplus beyond simple existence, was withheld.

This is an age of endurance tests, and all over the land manufacturers are competing for honors. Races of all kinds are planned as a feature in the demand for the machine which will cover the distance without accident or signs of weakness.

The man at the wheel is simply an incident. If he drops out, another takes his place, and the race goes on. The question at stake is not human endurance, but the endurance of mechanism so skillfully made and finely adjusted as to bear the 100 per cent of strain without breaking.

The ocean liner, which breaks the time record, is manned by the same crew from the captain on the bridge to the stokers in the hold. These men are not on trial, but when the good ship comes in the new engines which have stood the test of endurance, have met every requirement and made good.

And so, all through the world of mechanics, effort is directed towards making things which endure. The mail order range, with its light castings, may look like a stove, but it lacks staying qualities.

When Jeffries entered the ring at Reno, the other day, his professional friends who had been studying him closely for a week, said his success depended entirely upon ability to rally reserve forces at the critical moment.

There was something about the eye and the condition of his nerves, that made them skeptical, and they feared that the Jeffries of old had lost the vital spark as well as the stimulate which it had been wont to stimulate. Results proved that their fears were well founded.

The arena of life, like the arena at Reno, is lined with men at the ring-side, who have passed the age of endurance, and while they may complain about the restrictions of the age limit, still they are compelled to recognize its justice.

The march of time knows no obstructions, and its ravages are relentless. This old fact never dawned upon us except through experience. Other people grow old and loiter by the way, but we never will, and so we continue to burn the candle at both ends without thought of the future.

The waste of energy is much more common than its investment, and so when the time comes to pay the toll, which advancing years demand, we find ourselves destitute and bankrupt.

The cigarette, the social glass, the night of dissipation, are all drafts on the bank of life which weaken its resources and which will be sadly needed later on.

Occasionally a man like E. H. Harriman drops out in the prime of life, and death is called premature because the resources of life have been taxed beyond endurance, but these cases are the rare exception.

The derelicts which line the pathway are men with weakened energy because of wasted resources and because of the strain of the years incident to every life.

The foundation of youth is not perpetual, however much we may desire it, and the only thing we possess which may be kept buoyant and youthful down to the edge of time, is a heart in "harmony" with ourselves, and in sympathy with humanity.

There is no limit to the resources of a loving heart. It passes the 20 per cent average, consumes the 20 per cent margin, and then out to the realm where faith and hope offer the only foothold.

The mother's love, so pure and unselfish that it bears the stamp of divinity, follows the wayward boy after all other confidence is destroyed, and the heart responds to the draft for the "little more" without murmur or complaint. The resources of such a bank are inexhaustible.

PRESS COMMENT.

The people have not yet voted for government by Collier's.—Milwaukee Free Press.

For the sake of "God's Patient

Poor!" It is to be hoped that the warm weather will have moderated before the senior senator commences his campaign for re-nomination. There are limits to every man's endurance.—Wausau Record-Herald.

If we had a purely post the express companies would not have a monopoly, hence could not compel patrons to pay rates which permit enormous dividends on watered stock and melon cuts, every one of which is stained with injustice.—Madison Journal.

"It will cost the railroads ten times more to meet a strike than to grant our demands," a statement attributed to the railmen's strike leaders, has been the sentiment that has ended more than one great labor dispute unjustly. It is one of the strong arguments in favor of arbitration of all great labor disputes.—Sheboygan Journal.

Convicts in Washington have struck for an eight-hour day. Isn't it terrible the way things are going in this country? The next thing we know men will object to being hanged when they have been convicted by a jury of their peers and sentenced by the palladium of their liberties.—Milwaukee Journal.

It is reported that the University of Wisconsin is being used to promote the interests of La Folletteism. The students have been sent home to boom the senator and if needs be to run for the assembly that he may be sure of his support in the next legislature. This is to be regretted. Individual politics in a school of learning may be likened unto religion and politics, diametrically opposed to each other.—Manitowish News.

It is no credit to Rock county that it stood third in the list of divorces granted for the year ending Sept. 30, 1909. Milwaukee led with 281 legal separations. Brown county was second with 54 and Rock third with 49. The total number granted in the state was 1,476. In 1,125 cases the wife made the complaint, and in 351 cases the husband. Cruelty was the chief cause, this being the contention in 712 instances, desertion and drunkenness followed.—Beloit Free Press.

Heart to Heart Talks.

By EDWIN A. NYE.

KEEP ON GROWING.

"When I began on this job it was difficult, but I have mastered it after a long struggle. It comes easy to me now."

I said to him: "Then it is about time you were trying a more difficult task, is it not?"

After a moment's thought he replied: "I hadn't thought of that. I was settling down comfortably in this work. But I cannot say I am exactly contented, because I realize I can do better work. I see what you mean. You think a man ought to keep on growing."

That was precisely the point. He was comparatively a young man and had not nearly developed his full ability to do things. The fact that his ability to do difficult things had caught up with the requirement of his task was proof that his powers were growing.

When a difficult duty becomes easy select a more responsible one. That is the only way to grow.

One of the chief pleasures of life is the joy of accomplishment. And when one comes to realize that he can do things he once thought to be beyond his powers he becomes as a strong man to run a race. He feels himself to be growing.

Where do the forces come from? We do not know. The mystery of growth, whether it be of the wheat or of the tree or of the mind, will always be a mystery. We know only the facts of growth, not the why.

To illustrate: Darwin tells us that the first eagle couldn't fly, but it wanted to fly and tried to fly. Generations of eagles wanted and tried to fly until through the mysterious processes of evolution the eagle developed pinions and power—and flew.

So of the human capacity. Desire and trial long continued will develop inherent faculties or even new powers—powers and faculties undreamed of—until finally the man is able to do the things he wants to do and be the things he wants to be.

Nothing is better settled by modern psychology than that fact. Keep on growing. Select the hard task. When you have mastered that, try another that is more difficult and master that.

Do hold enough to follow the lines of development of your growing powers. To do so spells both success and satisfaction. Because—While your vigor lasts your joy of doing will last.

Keep on growing. Nothing in all the universe, here or hereafter—I say it reverently—not even God himself, can stand between the soul that grows and its successful destiny.

Uncle Walt THE POET PHILOSOPHER

By WALT MASON.

(Copyright, 1909, by George Matthews Adams.)

She worked so hard, the long day, at putting mislaid things away, at sweeping all the floors and stairs, and shaking up rugs, and dusting chairs, and cleaning grease marks from the doors, and forty thousand other chores. And when her husband came at night, his cottage was a cheering sight. But he, like many of his kind, though having two good eyes, was blind; he never

gave a glance or thought to all the things his wife had wrought. He stretched himself upon two chairs, and talked about his selfish cares. She wanted just a word of praise, and he discussed his evil days; she wanted just a little smile, and he observed that times were vile. She wanted bread, and got a stone, and bowed her head to weep alone. A man may lug a lot of gems, and velvet gowns with silver heels, and all such do-dads, to his wife, and then not brighten up her life one-half as much as he might do if he would give, at times, a few kind words that do not cost a yen, but make her heart grow young again.

Warranted Heart Whole. "Break an hour's promise in love! He that will divide a minute into a thousand parts and break but a part of a thousandth part of a minute in the affairs of love, it may be said of him that Cupid hath clapped him on the shoulder, but I'll warrant him heart whole."—Rosalind.

Optimistic Baltimoreans. Conspicuously displayed in wholesale houses throughout the city are placards that read: "Make a noble new like an order." This style of sign serves as a follow up system of its predecessor, lately sidetracked: "We are advance agents of optimism—no calamity howlers here!"—Baltimore American.

An Extension Telephone In Your Residence

saves running down stairs many times a day to answer the phone. Many homes have an "extension" up stairs. During the hot weather it's an especial convenience. Costs but very little more.

Rock County Telephone Co.

Since Jan. 1st we have added 149 new subscribers to our list. Merchants who have our phone have these people within call.

Seasonable Mention of Important Lines

New White Lingerie Dresses

Just a beautiful lot of sheer white dresses, trimmed with heavy German embroidery in novelty patterns. They have the new sleeves and styles are really exceptional. Prices range \$4.50 to \$16.00.

Petticoats of Colored Lawn

Rare values at \$1.00. They are made of a good quality lawn, in light colors, with deep double embroidery flounce. Nice to wear with summer dresses.

Long Coats of Silk, Pongee, Rajah, Cloth of Gold, Etc.

The prevailing styles made in auto styles with high collar or shawl collar, an excellent assortment. Also a good showing in long coats of linen, repp, linen rajah, etc. If you need a long summer coat, our prices will prove a great attraction. Prices now range \$3.00 to \$16.50.

Summer Waists, Unequalled Values

This store is entitled to vast credit in the showings made in this department. We have kept our stocks fresh, offering the very latest conceits in waists as fast as they have been put on the market, and at prices that have made them the greatest values in Rock county. Our present showing is replete with clever models in plain tailored waists, the new auto waists, the middie waists, the chancier styles and many beautiful sheer lingerie waists. The price range is \$1.00 to \$4.00, and at all prices you will find extra good values and plentiful assortments.

New Models in Wash Dresses, \$3.50 Up

We wish to bring to your notice a new shipment of handsome Wash Dresses, one-piece styles in semi-Princess effects, both panel and belt at normal waist line styles, made of the finer gingham, plain colors with contrasting trimmings, also embroidery and lace, in checks and new plaid patterns. Prices range from \$3.50 to \$8.00.

Do You Know That Any of These Hot Days are liable to end up with a tornado, cyclone or a terrific wind storm,

entailing great loss of property of every description? Janesville is not exempt from such a calamity, for during the past few years there have been numerous wind storms in Janesville and vicinity causing THOUSANDS of dollars LOSS OF PROPERTY.

Protect Your Property Against Such a Loss

by taking out a policy with us covering farm buildings, residences, live stock, and personal property. All this is covered with a tornado policy issued by this agency. It protects you against loss from WINDSTORM, TORNADO OR CYCLONE. And you will be surprised to learn how reasonably this protection can be secured. Call, phone or write us for rates on farm, residence or business buildings.

HAYNER & BEERS

INSURANCE—Fire, Life, Accident, Liability, Tornado, Auto.

Save a Little Money Today

Don't buy a \$1.50 to \$2.00 Waist when you can get the same value here in our sample line at 90c. This saving put aside and similar saving put aside each time you must make a purchase will amount to a large sum in a year if you buy your suits, dresses, underwear, etc., from our sample lines. We buy them a third and a half under price and you might just as well make this saving.

LINGERIE WAISTS—Beautiful white waists, low neck, short sleeves, a lot that will equal those sold generally at \$1.50 and \$2.00. Our price 90c.

MEN'S SUMMER UNDERWEAR

—We have a great lot of bargains in these, a purchase that enables us to offer our goods at about half the regular price. This is a job lot but they are as good as anything in regular stocks today. Union suits and separate garments of silk, halbriggan, hile, porous-knit, athletic, etc. All sizes. Half price.

LADIES' SAMPLE UNDERWEAR—A large line of vests at 15c and 25c that ordinarily would sell at 25c and 50c. Ladies knit vests 5c. Out sizes 3 for 25c.

BEAUTIFUL NIGHT GOWNS—Of fine long cloth, elaborately trimmed with laces and embroidery, handsome styles, priced \$1.50, \$2.00 and \$2.50, gowns that retailed generally as high as \$6.00.

50c LISLE HOSE AT 25c—One lot of ladies' black hosiery that we have marked very special at just half their worth. See these and judge for yourself.

SILK DRESS SKIRTS—For summer wear, black and colors, prices fully one-half less than usual. See them in the window. Prices range \$4.00 to \$10.00.

Archie Reid & Co.

WINDOW SHADES

If they are made right out of the best grade of shade cloth you get more for your money than if you buy the cheaper grades. We believe that it's real economy to sell the best only. Get our prices. You will find them very reasonable.

DENTAL

I believe I get the worst cases of extracting in all this end of the State. All the Janesville Dentists seem to dump their bad cases of extracting on to me.

No Dentist likes to tackle these difficult cases of broken-down, rotten, and decayed teeth.

No (it's told me by my own witnesses) they dishearteningly remark that they hear that Dr. Richards extracts teeth.

No let it be. I do extract thousands of teeth.

Not ruthlessly, but by force of necessity.

And the best of all, I do it painlessly.

The truth of which is testified to by my patients.

If you are in distress with your teeth, come to me direct.

FOR SALE—Good heavy work horse, choice pair of barred Plymouth Rocks, four young with goose, a small cook stove. 37 S. Main.

MEN—Learn automobile business; wages \$25 weekly; \$10 while learning. We teach by mail. Rochester Auto School, 750 Rochester, N. Y.

AMBIGUOUS

Mrs. Prudente—Miranda, listen to me. If I only catch young Manly kissing you once he'll get a piece of my mind!

Miranda—Don't worry, ma. I'll give him a piece of my mind if I only catch him kissing me once!

Incredulous.

There are lots of people in the world who won't be satisfied that the high cost of living is bad enough until they have bought books from agents on the subject—Atchison (Kan.) Globe.

DELAY WORK ON S. MAIN STREET

CONTRACTORS ARE UNABLE TO SECURE PAVING BRICK.

BLAKE ASSIGNS CONTRACT

Madison Contractor Will Let Freepoint Firm Rush Work on Sinclair, S. Second and S. Third Streets

Property owners on S. Main St., between St. Lawrence Ave. and Racine St., will be forced to wait until next fall, or possibly, even later, before they will have the pleasure of seeing that street paved as conditions over which neither the officials or the contractors in charge of the work have control, make it impossible to complete the street at once.

Work on Sinclair, South Second and South Third streets, however, will, as a result of the delay on S. Main St., be delayed to completion as soon as possible.

Stricken by miners in Illinois coal fields and by workmen in the brick yards of the company who secured the contract for furnishing the paving brick, the direct causes of the stop in the paving operations, Gaud, Graham and Co., of Freeport, Ill., secured the contract for paving South Main St., and the Burlington Paving Brick Co., of Galesburg, Ill., was the firm selected to furnish the paving material, according to the understanding, the Galesburg firm was to make the first shipment by July 1, but "inability to secure coal to operate their kilns, the result of the miners' strike, and labor difficulties in their own yards, have practically closed down their plants. They have advised the contractors that they will be unable to ship any brick before Aug. 15, and perhaps even later than that date.

This places the Gaud, Graham Co., in a bad hole as they have already moved their tools to this city in accordance with the request of the city officials who wished to have the pavement completed as soon as possible.

After some deliberation, a compromise has been effected that seems to open a way out of the difficulty.

Thomas Blake of Madison, who was awarded the contract for laying the asphalt-macadam pavement on Sinclair, S. Second and S. Third streets, became involved in some difficulties with the street assessment committee regarding the grade of asphalt to be used as binder for the pavement.

The grade was not specified in the original bid and Mr. Blake decided to use the grade demanded by the city officials. The Gaud, Graham Co., in order to keep their men busy, have agreed to lay the macadam pavement on the above named streets and use the asphalt specified by the city, so Mr. Blake has assigned his contract to them. Work will be started as soon as S. Main St., which has been torn up for the brick pavement, has been placed in a condition that will permit of its being used for traffic.

The grade of asphalt, over which the difficulty arose, was determined upon after a number of specimens had been submitted for analysis to Lester Kirschbaum, city asphalt chemist of Chicago, who stated that it found to be the best grade. According to present arrangements the Gaud, Graham Co. will place South Main street in condition for traffic as soon as possible and then begin the macadamizing of Sinclair, South Second and South Third streets. It is thought that this work can be completed or at least brought to a stage that will permit of the company beginning work on South Main street, as soon as the material arrives.

That the Burlington Brick company is not the only concern that is tied up is shown by the fact that although the city has made efforts to secure brick elsewhere, these efforts have been in vain. Requests for material addressed to other companies have elicited the same reply. "No brick in sight."

Brick could be secured from Ohio but high freight rates have put the Ohio brick out of the running. While it is to be regretted that the work on South Main street cannot be completed immediately, in view of the circumstances, it is believed that the best possible arrangement has been made under existing conditions.

Attention D. of R. No. 171.

A special meeting of Janesville Rehearsal Lodge No. 171 will be held Tuesday evening at 7:30 o'clock at East Side L. O. O. F. hall to meet the assembly president. All members please be present.

By Order of Noble Grand.

JANESVILLE LADIES MORE THAN PLEASED.

Miss Ross Meets With Excellent Success in Her Work Here.

"I am more than pleased with the treatment I have been receiving here and with the civility which I have received and with the success of my work in your pretty city," said Miss Ross, who is an expert solicitor visiting in Janesville in the interest of Jersey Lily Flour. "It is probably due to the fact that Jersey Lily Flour is so well thought of here and understood that many of the homes have used it continuously for twenty-two years. My work is simply to call on the ladies and find out if they are using our flour and if not, to persuade them to use a 25-lb sample which we give free, merely to give them an opportunity to test the flour. Jersey Lily Flour sells upon its merits and we find that so many ladies order after using the sample that it makes many new friends for us."

NOMINATION PAPERS

We have a supply of nomination papers ready for the immediate use of candidates for office.

GAZETTE-PRINTING DEPT.

An Infant Son: An infant son arrived at the home of Mr. and Mrs. Edward W. Brown in the Richardson flats on South Main street this morning. At a late hour this afternoon the mother was said to be getting along nicely and there were good reports of the child.

PRICE REDUCTIONS FOR NEXT WEEK.

All next week we continue our special prices in the ready-to-wear, knit and muslin underwear, hosiery, gloves, wash dress goods and domestic departments, as advertised Thursday, T. P. Burns.

LOCAL PARAGRAPHS.

Monster Egg: Mrs. C. M. Flock of 1231 N. Vista street brought a hen's egg into the Gazette office this morning that was six and a half inches around and over eight and a half inches around the long ends. Its shell was unusually clear. Several hand-some bouquets of sweet peas and garden flowers also accompanied the wonderful egg.

Meeting of Launch Club: At 4:00 o'clock tomorrow afternoon a meeting of the Janesville Launch club will be held at Elm Park, five miles up the river. All members are requested to be present as the election of officers takes place at this time.

May Sign Hartig: John Hartig of Waupun, formerly outfielder for the Fond du Lac team of the Wisconsin-Illinois league, but who played this year with the Dixon, Ill. "Brownies," is in the city and may be signed by War and Casey for the Janesville "Athletics." Hartig, although not a ball player from the ground up but is not attached to any team at the present time as the "Brownies" struck a rock recently and were disbanded because of poor attendance.

Automobile Parties: William Mitchell Lewis of Racine who is seeking Republican gubernatorial honors, V. L. Hight of Milwaukee, and Charles Olin of Racine left Janesville this morning in a touring car. Other parties registered at the Hotel Myers since yesterday were: A. O. Pannick, O. Zwicky and J. C. McKenna of Madison; Dan Higgins, Miss Louise Higgins, and Allen Simpson of Monroe.

Woolen Mills Closed Down: The Rock River Woolen mills are closed down for a couple of weeks to enable the management and employees to take a vacation.

MAC'S LUCK

The Young Woman Reporter's Story.

The following good tale written by a clever young newspaper woman is a true story that came under her personal observation:

"I have been with the (a paper in a Calif. town) for nine years and Mac has been with us all that time and I do not know how much longer."

"Last winter and the winter before Mac, probably from constant night work and improper food, got badly run down, could not eat much, what little he did eat did not do him much good and he always complained he could not keep warm."

"I missed him for awhile until yesterday I overtook him on the street going toward the office, and hardly knew the man; had it not been for the familiar walk I should surely have passed without recognizing him. He was stout, his face was round and ruddy and his eyes bright as I had never seen them before."

"I said, 'Mac, I hardly knew you, what on earth have you been doing to get so fat?' He replied, 'Grape-Nuts. I started in on Grape-Nuts four or five months ago when I weighed 125 and was feeling miserable, but now I weigh 160 and feel better than I ever felt in my life. I quit my old diet and went on Grape-Nuts and that's the whole story.'"

"Exercise is necessary but there's no nourishment in it and proper food alone can supply that. Grape-Nuts for 10 days is a pleasant trial and proves big things."

"There's a Reason."

Look in packs for the famous little book, "The Road to Wellville."

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

DEMIMES MEET AND ORGANIZE

PLAN FOR A HARD FIGHT AT THE FALL ELECTION.

COUNTY CHAIRMAN RESIGNS

Hold Usual Elections But Lay Strong Stress on Voting the Straight Ticket.

For the purpose of perfecting their political organization in the county, electing a new county chairman, selecting candidates for the various county and legislative offices, electing a county committee and naming delegates for the state convention to be held in Milwaukee, the democrats of Rock county held a meeting at the court house park this afternoon at two o'clock. Fifteen delegates were in attendance. George G. Sutherland acted as chairman and P. J. Mount as secretary.

Enthusiasm ran high among the militant minority who, under the leadership of State Chairman Harvey of Madison, see victory for the democratic party in the coming election, as a result of the alleged split in the G. O. P. ranks. One of the surprises of the meeting was the announced intention of County Chairman J. J. Cunningham to retire from his office. According to Mr. Cunningham, his work as a member of the state central committee keeps him too busy to attend to the details of the county chairman's ship.

The organization of the party for the purpose of presenting its full strength at the fall primaries and election was the main object of the convention and that, with the idea of getting out the votes and prevailing upon the voters to vote the straight ticket, instead of voting themselves with the so-called "progressive" wing of the republican party, was the chief theme of discussion. Much attention was also paid to the work of getting democratic candidates out for all of the county and state offices that will be filled this fall. Other issues, notably the county option movement, were conspicuous by their absence, although the wet or dry question will come up at the state convention.

Elections held were as follows: County committee, consisting of three members from each ward, town and village in the county, and sixteen delegates and alternates to the state convention to be held in Milwaukee on July 12.

The Swiss Married Woman.

A married woman in Switzerland is entitled to one-third of her husband's income as her independent property, according to a new law.

Former Janesville Young Men Expired Suddenly of Tuberc.

Relatives in this city have been notified of the sudden death of Ross Bump, a former Janesville young man, at 2:30 o'clock yesterday afternoon, in Denver, Colo. His demise was caused by tuberculosis.

Mr. Bump went to the Best Care sanitarium for treatment in February and was considered one of the star patients, so rapid had been his recovery, and it was hoped that he would be discharged from there, cured, in a short time. Then, suddenly, about two weeks ago, he had a hemorrhage, from which he never recovered and which kept him confined to his bed until he died. The funeral will be held in Denver and the body will be buried there.

Ross Bump was about twenty-seven years of age. He was born in Woodstock, Ill., but received his education in the graded and high schools of this city, graduating from the latter with the class of 1902. Several years ago he went to Woodstock where he was employed by the Oliver Typewriter company. Failing health compelled him to give up his work there and seek a change of climate, and five years ago he went to Denver. He secured a position with the Denver Gas and Electric company and worked rapidly upward, being promoted over others still in the service of the company, until he held one of the most responsible positions in the city. Again his health failed him and he sought recuperation by spending a winter in California, but the benefit derived was apparently not great. He was finally forced to give up his work in February. He never gave up hope of becoming well again. He leaves to mourn his loss a mother, Mrs. John Bump of Denver; two sisters, Mrs. Claude Barber of Denver, and Mrs. Laura Copeland of Woodstock, Ill., and an aunt, Mrs. W. T. Tallman, and grandmothers, Mrs. Laura Bump, both of this city. The young man had a host of friends in this city. W. B. Tallman, a cousin, has gone to Denver to attend the funeral.

Mrs. George W. Brown.

The funeral of the late Mrs. George W. Brown was held from the home in the town of Center at one o'clock this afternoon. Charles Cleland, John Hunsdale, Charles Hawk, and Dr. Geo. Little were the pall-bearers and Rev. J. W. Langhille officiated. The deceased was born in the town of Muskegon, Mich., Dec. 15, 1841, and subsequently lived in Chippewa Falls; and still later made her home in Portville. The three sisters who survive her are: Miss Deborah McDonald of Janesville, Mrs. Elizabeth Wilcox of Minnesota, and Mrs. John Burr of Spring Valley.

Anna Roberts.

Anna Roberts, the eighteen-month-old daughter of Mr. and Mrs. C. B. Roberts, 1022 Pleasant street, died last evening at nine o'clock of acute indigestion. The child was taken sick at ten o'clock yesterday morning and suffered intense agony.

The funeral will be held at 2:30 Sunday afternoon from St. Patrick's church.

James J. Gilbertson.

James J. Gilbertson, aged 81, died at his home, 629 South Highland street, this afternoon at 1:45 o'clock. He had been ill for the past six or seven weeks. He was a native of Christiana, Norway, born in 1829. Besides a widow, two children survive him. Notice of the funeral will be given later.

Association Meets To Elect Officers

Much Business Transacted at Meeting of Commercial Athletic Association Last Night.

At a meeting held last night at the Y. M. C. A. building, officers were elected by the newly organized Janesville Commercial Athletic association and other business regarding the membership of the association and the admission fee to be charged for the Commercial League games transacted. The following officers were elected:

Pres.—T. O. Howe.
Vice Pres.—John Gollmer.
Secy. and Treas.—J. C. Kline.
Board of Directors—A. G. Jones, N. I. Milliken, E. F. Lewis, W. L. Hodson, J. C. Kline.

A committee of three, consisting of T. O. Howe, E. F. Lewis, and J. C. Kline, was named to draft the by-laws for the organization and will report at the next meeting. It was also decided to execute a lease of athletic park, owned by Charles Conrad, for three years, with the option of purchasing the same within that time for \$1,400. Other action taken was the decision to reduce the admission fee to league games; give a committee power to assume full charge of all outside work and admit managers and captains of the various teams to all questions regarding the league.

League games today will be between the Parker Pen company and the Y. M. C. A. and the Caloric company and the Woolen Mills. The first game started at 7:30.

ROSS BUMP DIED IN DENVER YESTERDAY

Former Janesville Young Men Expired Suddenly of Tuberc.

WOMAN--AS USUAL-- GOT WORST OF IT

When Mr. St. John of Deloit, a Happy Married Man, Started Out to Stray From Straight and Narrow Path.

Mr. St. John of Deloit, it appears, is anything but a saint, and what's more—his wife, who was Edna Wheeler of Janesville, is "onto his curves."

She came to this city with him yesterday afternoon and when, later on, the husband tried a little flirtation on the side with Helen Larson, the wife was right on his trail. On high about seven o'clock she gave the recent spouse a piece of her mind and slapped him soundly, so "his was the victim of an unfortunate accident for the police. The combatants, however, had dispersed when Officer Fanning reached the scene. The Larson woman was arrested later in the evening by Officer Jim Dorn and in municipal court this morning she pleaded guilty to a charge of having been an inmate of a house of ill-fame on Academy street during the month of April. It is recalled that she was arrested along with the other two inmates of the resort at the instance of City Attorney Maxfield last spring but when sufficient evidence to convict was not in sight, she was permitted to offer to testify against her associates under promise of an "immunity bath." The threat of this testimony caused the pair to change their plans to "gully" and the promise to the Larson woman was kept—she was released and the proceedings against her were dropped. On her plea of guilty to the ancient complaint, the court this morning gave her the choice of paying a fine and costs amounting to \$17.80 or going to jail for fifteen days. She did not have the cash and went to the battle. According to her story to the court, St. John gave her to understand that he was not a married man.

CAUSE FOR WORRY

Smith—if you don't worry you can live to be a hundred years old.

Jones—A hundred? Gee! If I thought I'd live to be a hundred years old I'd worry myself to death right now.

CLOAK MAKERS STILL ON STRIKE

NEW YORK CLOAK MAKERS' STRIKE PROMISES TO BE BITTER.

QUARTER OF TRADE TIED UP

Operatives Try to Obtain Big Loan to Carry Walkout to Successful End—Trouble May Extend to Other Cities.

New York, July 8.—A long struggle between the cloak and garment manufacturers and their striking employees of Greater New York is indicated by the developments of the past two days. Already 25 per cent. of the trade is tied up and it is possible that the strike will spread still farther.

Abraham Rosenberg, the strike leader, made tentative arrangements to obtain a loan of \$100,000 from prominent bankers whose names he would not disclose. This loan is promised without interest. Mr. Rosenberg announced that he was in a position to obtain all the money that might be necessary to carry the strike to a successful conclusion.

Manufacturers Will Fight. In spite of the apparent strength and determination of the strikers the manufacturers held two meetings, at both of which it was decided to fight the strikers to a finish. This action of the manufacturers was a complete surprise to the strikers. Of the 1,500 manufacturers more than 100 had already acceded to the demands of the cutters and operatives, and the strikers felt certain that the others would surrender within a few days. President Rosenberg had announced that there would be a speedy settlement of the difficulties.

No Demands Submitted. At both meetings of the manufacturers it was made clear that the strikers had submitted no demands before quitting work on Thursday. Neither had they given any notice of their intention to strike.

President Rosenberg said that the operatives were prepared for a long strike. The Union local of the Cloak makers' union, he said, had offered to raise \$2,000 a week to help the strike and similar offers had come from Philadelphia, Chicago, St. Louis, Cleveland, Cincinnati, Baltimore and other cities throughout the country. These cities promise an aggregate of \$30,000 a week to carry on the fight if the money is needed. The union, however, has \$70,000 in its treasury and plan to raise additional money by per capita assessments.

Word also came from the large cities of a willingness to strike in sympathy with the New York union whenever such action seemed necessary.

ROB NEW YORK OF MILLIONS.

Messenger Boys Operate Big Stock Transfer Stamp Swindle.

New York, July 8.—The state of New York was robbed last year of nearly \$2,000,000 by a widely organized gang of stock transfer stamp thieves. State Controller Williams is expected to issue a statement in a few days giving the details of the operations of the robbers and how they were apprehended.

The controller's office has obtained the confession of six messenger boys connected with prominent Wall street brokerage offices.

Suspicion that the state was not obtaining sufficient revenue from its sales of stock transfer stamps was aroused as long ago as February, when

the receipts began to fall off perceptibly. Three hundred men and boys have been found to have been implicated. Most of the swindlers are messengers, who have been making from \$1,200 to \$1,500 a year unknown to their employers. In command of these dishonest youngsters are about twelve men who conduct "fence" where the stolen stamps are bought and sold.

UPPER MICHIGAN DROUTH ENDS.

Rains Save Town of Ontonagon From Destruction by Fire.

Columet, Mich., July 8.—Drought of a month was broken by thunderstorms lasting nine hours. A fierce downpour saved the village of Ontonagon, west of Houghton, from destruction. The mills near Ontonagon were closed because of the near approach of the flames, and much manufactured and raw lumber was destroyed. Farmers were driven in large numbers from their homes, many losing their property and stock. Fires all over northern Michigan were checked by the rains.

NAPOLEON'S FOE'S WIDOW DIES.

Recalls Attempt of Maubrou to Kill French Emperor.

Paris, July 8.—The widow of Germain de Maubrou, who tried to kill Napoleon in 1814, died here. Maubrou, according to historians, was employed by Talleyrand to assassinate Napoleon just before he started for Elba. At the age of eighty-three in 1855 Maubrou married a girl of sixteen and it is her death that recalls the days of the great emperor.

CROP LOSS LESSENED BY RAIN.

Outlook for Large Yield of Foodstuffs Is Made Favorable.

Washington, July 8.—A drop of about 30 per cent. in the condition of spring wheat and minor damage to other crops from the drought were conditions shown in the government monthly crop report.

The figures given reflect the situation on July 1. Since then rains have fallen in a part of the territory that lacked moisture in the early season, and it is thought that the outlook for a large yield of foodstuffs now is more favorable than the figures of the correspondents of the department of agriculture would indicate.

The average condition of spring wheat in North Dakota, South Dakota, Minnesota and Washington, the four states which contain more than 88 per cent. of the total spring wheat acreage in the United States, was only 62.5 as compared with 92.3 a year ago and ten-year average of 87.8.

The average condition of spring wheat throughout the United States at the beginning of the present month was 61.6, while a year ago it was 92.7 and the ten-year average was 87.1.

LICENSED TO WED. MRS. GOULD.

Ralph Thomas Given Permit in New York—Date, Not Arranged.

New York, July 8.—Ralph Hill Thomas, assistant treasurer of the American Sugar Refining company, and Mrs. Helen Kelly Gould, who was divorced from Frank Gould August 25, 1909, obtained a marriage license at the city hall.

Mr. Thomas said he was twenty-eight years old and lived at 763 Fifth avenue. He was born in Boston and is the son of Joseph H. Thomas and Annie N. Hill. It is his first marriage. Mrs. Gould said she was born in New York twenty-six years ago and is the daughter of Edward Kelly and Helen Pearson. Mr. Thomas said no date for the wedding has been arranged.

KERMIT ROOSEVELT FOR PARIS.

Son of Former President Goes 'Abroad' to Resume Studies.

New York, July 8.—Though he has just returned from a 15-months' trip abroad with his father, the ex-president, Kermit Roosevelt called today for Paris on the Hamburg-American liner Amerika.

The purpose of his trip, it is stated, is to continue his studies, interrupted by his trip to Africa.

Friends of Kermit are expecting him to follow in his father's footsteps and to

Kermit Roosevelt.

which sprung up between him and Miss Margaret Hetherford, first daughter of Mrs. William K. Vanderbilt, Sr., whom he met in Paris on his recent visit. Miss Hetherford is about Kermit's age and is a noted beauty, who will inherit great wealth.

COL. JOHN S. MOSBY IS OUSTED.

Confederate Guerrilla Chief Loses Position Given by President Grant.

Washington, July 8.—Col. John S. Mosby, confederate guerrilla chieftain, has lost his job in the department of justice.

Colonel Mosby is about seventy-three years of age and one of his eyes is defective. He was notified that his place was vacated on July 1. But he did not tell anybody about it and it was only discovered accidentally. He got his first job from President Grant. It is expected that the case will be reported to President Taft.

ASK FOR BANK INFORMATION.

Treasury Department Has Prepared No Deposits Regulations.

Washington, July 8.—Banks generally throughout the country are making applications to the treasury department to obtain copies of regulations governing postal savings bank deposits. Acting Secretary Hilles is advising them that no course of action has been formulated or instructions issued and that it is impossible at this time to give any definite information on the subject.

Banker's Suicide Causes Run.

Lorain, O., July 8.—A run was made on the City bank following the suicide of Cashier Crip. About one hundred depositors withdrew their savings. Other city banks stood ready to assist payment. President Bell said that no shortage existed.

His Idea.

Sammy (indulgently) surveying his lately-arrived twin sisters—Did you get them cheaper by taking the two, papa?—Smart Set.

COURT GRANTS A STAY IN BERTH RATE CASE

Pullman Company and Railroads Score a Temporary Victory at Chicago.

Chicago, July 8.—The reduction in sleeping car rates ordered by the interstate commerce commission cannot go into effect for several months because of an order issued by the United States court of appeals here. Judge Bennett, Grosscup and Baker granted a stay order pending a rehearing by the commission as to the justice of its mandate.

The court ordered that the companies affected shall furnish a bond to the court out of which passengers paying the present rates shall be reimbursed should the commission, upon rehearing, adhere to its first position and insist upon the reduction.

CHARLTON PROBABLY BE FREED.

Wife Slayer's Hearing Again Postponed—Italy Not Heard From.

New York, July 8.—The hearing of Porter Charlton, the confessed murderer of his bride, Mary Scott Castle Charlton, at Lake Como, Italy, was again postponed until August 11 by Judge Blair in the Jersey City court. It was said that Italy is preparing a writ demanding the return of the murderer, but there is hardly a question that the demand will be refused by Secretary Knox, who has agreed to the extradition of Charlton on the condition that Italy agrees to return Italian wanted for crimes committed in this country. Italy will not agree to such a proposition and therefore Charlton probably will go free.

"HOBO" CLANS ARE GATHERING.

More Than 1,000 Are Expected at National Convention.

Carthage, Ill., July 8.—The advance guard of delegates to the National Hobo convention have arrived here. The convention is on for the week of July 18-23. A wealthy stockman has donated a fat beef and a Kickuk brewery a carload of beer. Monday is barbecue day at the camp on Long creek, just north of the city limits, and a great time is anticipated. The address of welcome will be made by "The Horn" Winters. A Number One, king of hoboes, will address the assembly on "Work Facilitates Immunity I Have Met." More than one thousand hoboes are expected to be present.

Congressman Brownlow Dies.

Bristol, Tenn., July 8.—Representative Walter Preston Brownlow of the First congressional district of Tennessee, after suffering for several years from Bright's disease, is dead.

Illustrating Favorite Story.

Illustrating favorite stories may form a new recreation for children and be a variation on pastime pictures at random in scrapbooks. Let the children hunt for magazine pictures that will, in their opinion, illustrate scenes or incidents in favorite stories. These pictures may be pasted in proper order in a scrapbook, with the name of the story written on the page.

Substitute for Confetti.

The time may be opportune for an appeal to inventors to consider the urgent need there is for some substitute for confetti. To admit that rice was had is not to make the substitute any better. It is comparatively useless when thrown, but the absolute impossibility of removing it from clothes or carpets without picking it off by individual particles should be enough of itself to condemn it in the eyes of all reasonable people.

The Optimist's Corner

Daily Helps to Health and Happiness

By GEORGE F. DUTLER, A. M., M. D.

The ways in which a girl may help herself—her future, if not her present self—are many, and each and all of them, practical to the last degree. The division of her day into a routine, may seem a matter of slight importance, but the best division, of the busy day of a housekeeper, a business woman, or of the woman of large social duties is of vast importance and comfort or discomfort to its divider. A regular time for arising, which will permit the proper dressing of one's self, and the undressing one's bed and airing of one's room before the breakfast hour, is a matter of habit which, when established in girlhood, becomes of the greatest use in later years. The apportionment of the morning hours—as these are least liable to interruption—to domestic duties, study or practice, and to any church or charitable work necessary, will leave the afternoon free for receiving or making calls, for outdoor exercise, and for amusements or duties which are only occasional. The habit—for this is what it becomes—of constantly endeavoring to make of whatever place a girl finds herself temporary or permanent mistress a tidy and pretty abode occupies many minutes, but they are well-spent ones.

Women Church Wardens.

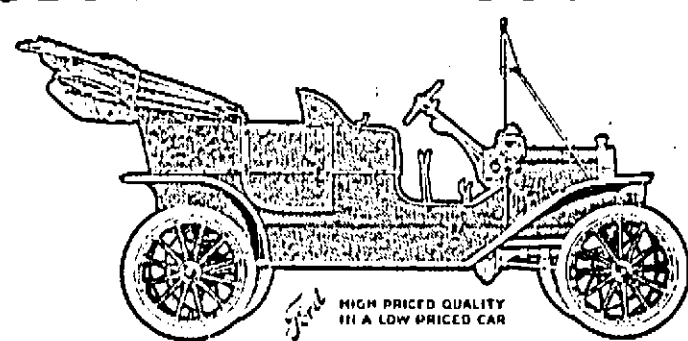

The recent appointment of a woman church warden at Walsingham-on-Avon, in Warwickshire, England, has brought to light the fact that no fewer than eight other women are exercising the same function in different parishes in England. There is, too, a woman sexton in a small parish in Lincolnshire. The office is hereditary, and has been held by the same family for 200 years.

Eggs of the Plover.

Plovers' eggs will always be found with their points to the center, and are invariably four in number, and it is arranged the mother bird speedily rearranges them. They are among the most difficult to find, for their color harmonizes wonderfully with their surroundings.

Disaster Reversed.

Success, in the highest, in a great man's manner of meeting failure—Life.

There is a Constant Growing Demand For Ford Light Cars

It isn't spasmodic—five orders one day and none the next—but a steady uprising of popularity that indicates but one thing—the perfect confidence of buyers in the Ford proposition.

No Other Car Offers Anything Like So Much for so Little

There are other good cars—many of them—to all of which we doff our hats. But for a car selling at more than fifteen hundred dollars below other cars in its class the FORD stands supreme.

It is a Perfect Performer Over Any and All Roads

You don't have to "pick your route." Start out and go where you will; if you would divert from the beaten path for plowed fields or wooded lanes, your FORD will see you through with ease.

Every Part of a Ford is Distinctly A Ford Part

We build the FORD car from stem to stern, for in no other way can we guarantee our product to you. And we will not sell a car under any circumstances unless we CAN guarantee it.

THE "OVERLAND" Most for the Money

Over \$3,000,000 has been invested to make Overland cars economically. The makers devote a whole factory to one model alone. By labor-saving machinery and multiplied output they have cut the cost 20 per cent in the past year alone.

A 25-horsepower Overland with 102-inch wheelbase now sells for \$1,000. A 40-horsepower Overland with 112-inch wheelbase, sells for \$1,250, with single rumble seat. The finest of the Overlands—called the Marlen Overland—sells for \$1,850. All prices include gas lamps and magneto.

No smaller maker with less modern machinery can begin to give what the Overland gives for the money.

We invite you to come and see these cars—the cars which have captured the country. You will agree with the rest in regarding the Overlands the most desirable cars made.

Remedies for Dyspepsia.
Summing up his experience with 425 cases of dyspepsia, an English physician said that benefit had resulted most frequently from one of two kinds of medicine—namely, alkali and a cathartic, such as ginger, an hour or an hour and a half after a meal, or when the discomfort came on; or bismuth carbonate, in doses of half a dram or more before meals.

"I DON'T LIKE THE WAY HER HAIR IS DONE UP"
The above criticism is often heard on the street, in hotels, theatres and other public places where women appear. It is usually directed towards the woman who, though fashionably and expensively appareled, is a target for the above criticism. Perhaps her hair is untidy because her hair dresser is careless and does not keep in touch with new fashions. Women who come to our establishment and have their hair arranged, go away pleased and satisfied because they don't fear any criticism about the arrangement of their hair.

WOMAN'S PAGE

The Evening Chit-Chat

By RUTH CAMERON

BABYLOGY is the newest subject to be introduced into the public schools.

Philadelphia is the mother of this innovation.

Medical instructors, assisted by trained nurses, are showing the girls how to dress a baby, how to prepare its food and bottle, and how a baby should be washed.

Three cheers for Philadelphia. I believe it is usually customary to make fun of her, but this time she certainly doesn't deserve it.

Can you think of anything more thoroughly sane than that idea?

Although I realize fully the value of a good general education, I do not think that should be allowed to crowd out the teaching of specific subjects that have a definite bearing on the children's lives, as much as it has in past years.

It seems to me that the very best way the poorer classes can be taught to make the most of what they have and be put into a position to have more, is by giving their children industrial and homemaking courses in the public schools rather than by settlement work and philanthropy.

These things have their place of course, but they merely water the branches, while the school training goes straight to the roots.

I think this course in babylogy ought to be instituted in the schools of every large city of the land and I think it ought to be supplemented by many more self-sufficient homemaking courses.

In Boston a group of young society girls, made up of the graduates from a domestic science school, have formed themselves into a club called the "Boston Homemaking Club." Their purpose is to translate what they have learned into its simplest terms and "pass it on" by means of settlement work to the uneducated people whom they felt need it so much.

One course is in food values. Could anything be sadder than to see the people who ought to get the fullest nutriment value from their scanty supply of money ignorantly buying the least nutritious foods as they usually do.

The death toll of those in the slums, the primary cause of whose death is simply improper nourishment, is enormous. If these people knew how much nutriment there is in many cheap things such as peas and beans and rice and macaroni, not only would the death toll be enormously reduced, but the industrial value of others who, although they do not actually die, are always on the verge of uselessness because of improper nourishment, would be vastly increased.

Think how much industrial training along these lines would do to help the next generation. No, that does not solve today's problem, but in addition to the task of beautifying the ugly spots of today, I think we have also the duty of planting shade trees for the next generation.

Another course is to be in meat buying—another in the buying of materials.

Another is in tasteful house furnishing. The girls hope to show how a home may be attractively furnished by thoughtfully and tastefully expending no larger a sum than the installment plan firm requires to "furnish complete" in all the horrors of stuffed furniture and gilded frame chromes.

I wish that all these courses and several more along the same lines might be instituted in the public schools of every city in the land.

Don't you think that the advisability and the possibility of putting some such new blood into the curriculum of the schools of this city might be a good thing to discuss in your club?

Nuts for the Health.

One very great advantage which nuts possess over most foods is their absolute freedom from adulteration. When you buy nuts you always know what you are getting. Of course, those bought in the shell are also absolutely clean. And what a beautiful source they come from! How beautiful to picture the trees upon which they grow, on the outermost branches, dancing in the sunbeams.—London Good Health.

To Bed for the Sick.

Few people realize that for most diseases the bed and it alone is the greatest, surest, quickest cure the world and ages of science have yet discovered or bestowed. People as a rule, look upon going to bed for sickness as a necessary and unavoidable consequence of sickness, instead of looking upon it as they should, as being the very first and greatest part of the cure of the case.—New York Press.

THE BURDEN OF THE WORLD.

BY MARY HUSSELL.

A most exquisite statue of Atlas has just been completed by Gutzon Borglum.

It represents the world being held in the arms, pressed to the breast, of a female figure, delicately formed, a woman.

Mr. Borglum says that to him the statue typifies the women of today and their position in the world.

Love is the great motive power that holds the world together.

Love that carries its burden, not on bent and bowed shoulders of slavish submission.

It is intended to express the submission and power of women in the world today, and the sphere which the figure holds is the burden of motherhood, the burden which women bear and which, summed up, is all the world.

The statue is dedicated to the artist's mother and is a remarkable tribute from a spiritually intense nature to womanhood.

Women are perhaps the bearers of the burden of the world in the great sense of motherhood. That is not all of life, however.

Man is born with tendencies gained from both father and mother. He is taught—or goes untaught—and learns that the world is full of pitfalls for his unwary feet.

No mother can give all that a child needs. She has had the privilege of trying to bring up her children alone for many years.

What man or woman does not remember as one of the most frequent repeated phrases of the father of childhood memories, "Go to your mother," or "ask your mother?"

Mother bound up the soothing and the restraining. She bound up wounds of heart and body. She tolled late in the night that some coveted pleasure might await the child on the morrow.

And the father—what has been his part? He supplies the money! A very important part of the child's being, to be sure, but one with which no father should be satisfied.

We grant to women the reverence due her for the work she has done, but sometimes we wonder who is at fault that she does so much of the important part of life's work alone?

Is it due to her jealousy of the only prerogative which has been left solely to her? Or perhaps has the burden been shifted to her shoulders so gradually that she does not realize that she bears it alone?

The ancient idea of Atlas was expressed by a man of enormous strength bearing the burden of the world on bent shoulders. The new and poetical idea reveals a frail and slenderly formed woman with strain-

bowed shoulders of slavish submission. It is intended to express the submission and power of women in the world today, and the sphere which the figure holds is the burden of motherhood, the burden which women bear and which, summed up, is all the world.

ing muscles bearing the world in love and unselfishness in her arms.

Perhaps when we have lived up to a new ideal for a few years there will come to us a new gentler, who will have a new and fine ideal based on experience.

Then there will be given to the people a new Atlas. The world will be upheld joyously and religiously by two strong, well-muscled figures. Their faces will express love and happiness with an idealism, which will lift the hearts of the on-looker.

And one figure will be that of a man in all the pride of strength, and the other will be of a perfect woman. Neither a weak, nor sorrowful, and straining figure, but glorious, with power and love that will typify the ideals of life, and fatherhood and motherhood in its highest and noblest aspect.

And one figure will be that of a man in all the pride of strength, and the other will be of a perfect woman. Neither a weak, nor sorrowful, and straining figure, but glorious, with power and love that will typify the ideals of life, and fatherhood and motherhood in its highest and noblest aspect.

Your Doctor and Your Druggist
You don't run into the first doctor's office you come to when you wish to consult a physician, do you? Yet, after consulting the best doctor, do you give equal thought as to who is the best druggist? The prescription is your property. Take it to whoever you judge to be the best pharmacist. Remember this, the medicine is the most important part. All results depend upon its having the best material and knowledge of compounding. We make a specialty of drugs. Our interests are centered in the scientific compounding of medicine. Our prices are always reasonable. Your doctor will prefer to have his prescription compounded by those scientifically trained and educated. Mr. Pfeiffer, our Graduate Pharmacist, will give his personal attention to your prescription. Hader Drug Co., Milwaukee and River streets.

Smallest of Humming Birds.
At the children's museum, run by the Brooklyn Institute in Bedford park, the smallest of the humming birds has just been mounted by the side of a condor, the largest bird that flies. The humming bird is so small that the condor could easily take the whole body in its beak without injury to the humming bird.

BELOIT AVIATOR IS TO STARTLE WORLD
A. P. Warner is Building Aeroplane Along Entirely New Lines That Will Be Most Startling.
A. P. Warner, head of the Warner Instrument Co., of Beloit, Wis., is building an aeroplane in secret and it is said that the new sky-car will present some startling new features in aeroplane construction. Mr. Warner has made some great flights in his Herring-Curtis machine and is one of the most daring aviators in America.

BUSINESS MEN TO ENJOY AN OUTING
Merchants of Evansville to Hold Picnic at the Fair Grounds Next Tuesday.
[Special to this Gazette.]
Evansville, July 8.—At the Evansville business men's picnic, to be held at the fair grounds on Tuesday, July 12, a big ball game for the benefit of the Y. M. C. A. will be the chief attraction. One team will be selected from the business men of the city and one from the hatters and barbers, and no matter who proves to be the victors it will be a lot of fun to watch the game. The business houses will all be closed from one to four and it is expected that everybody will turn out to witness the game. The business men's team will be made up of the following players: Frank Gardner, C. D. Doolittle, Lyle Richardson, Bruce Townsend, Charles Day, Frank Murphy, H. A. Langumier, Bert Baker, J. C. Wobley, Ben Feltner, N. Gilman and Max Fisher. The hatters and barbers will include George Wolfe, Jr., Ellsworth Lee, E. M. Shaffer, Chas. Barnum, Leslie Bakelley, Wm. Phelps, Henry Dixon, William Douglas, Fred Sperry and Floyd Morgan.

Miss Lavinia Gillies and Miss Daisy Spitzer expect to leave the latter part of next week for Boulder, Colo., where they are to spend a few weeks.
E. H. Kanther of Racine has a position in the office of the Baker Mfg. Co., as draftsman. Mr. Kanther graduated from the U. W. with the class of 1910.
Mrs. Ethel Nidalla Walters of Philadelphia is visiting at the home of Mrs. J. W. Ames and other friends. She is on her way to Spokane, Wash., where her parents reside.
Mr. and Mrs. Ernest Grove of Ames, Iowa are expected to arrive in this city next week for a visit with the Tullar relatives.
Miss Jennie Crow leaves tomorrow for a visit to Chicago relatives.
Mr. Cannon of Janesville will spend Saturday in Evansville on business.
Gen. L. H. Allen and family were visitors at Kewanee yesterday.
Miss Christina Melchior of Beloitville is visiting Mr. and Mrs. Isaac Shurman.
Mrs. Doris Dougherty of Delavan is spending the day with Mrs. T. H. Lewis. Mrs. Will Steele is also a guest.

While carrying a blazing oil stove from the kitchen to the back yard a few days ago Jonathan Weaver had his right arm badly burned.
Mr. and Mrs. Burr Jones, the Messrs. Grace Crosby and Mamie Newman, Messrs. Ray Hym and Claude Rogers have been enjoying a week's outing at the Peterson cottage at Kewanee, Wis., as expected here tomorrow and will be the guest of Miss May Holmes.
Miss Pauline Pullen of Des Moines, Iowa is a guest of local relatives.
Mrs. Peter Meyers of Janesville is taking her sister's place at the telephone office this week while the latter is enjoying a vacation.
Lester Savin of Chicago visited relatives and transacted business here yesterday.

A Snake in His Hair.
The hair of the Indian yogi or religious mendicant owing to long years of neglect becomes matted together in a fashion more easy to imagine than to describe and certainly could not be brushed out. It is of very great length and when allowed to hang down trails on the ground.
One night one of these yogis was sleeping under a tree when a snake wormed its way into his tangled coils, and he had quite a difficult task to get rid of it in the morning.—Wide World Magazine.

FUNERAL OF A WELL KNOWN CLINTON MAN
Services Over the Remains of Dr. Joseph B. Randall Held in Village Wednesday.
[Special to this Gazette.]
Clinton, July 8.—The funeral of Dr. Joseph B. Randall was held here on Wednesday. Dr. Randall, who had made his home in the village for nearly forty years, was deeply respected and the attendance at the funeral services was large. He was born in Rhode Island, May 3, 1818 and died in this city July 4. He came to Clinton in 1872 and resided here continuously from that time, with the exception of two years spent in Salt Lake City.

KICKERS COLUMN.
To the Editor:
Let the good work go on. The killing of the yellow dog in the First ward, was certainly a pleasing sight, suffering humanity, worn out with the intense protracted heat, and then unable to get rest or sleep from the constant hot baking of mosquitoes—living, such an animal becomes an unbearable nuisance and should be shut up, up at night by their owners, or put out of existence. This particular dog is only one of a score or more in that locality, that should meet the same fate, and not be allowed by their constant howling and yelping, make the quiet hours of the night a nuisance to tired, worn-out bodies, needing recuperation and sleep, for the work and exhausting heat of another day. For the sake of humanity kill some more of these infernal—good-for-nothing curs, that persist in barking from sunset to sunrise. Get some rest yourselves and let your neighbors rest also.
"A SUFFERER."

MANY INTERESTED IN FIGHT EXHIBIT
Souvenirs of the Battle at Reno Sent by William W. Watt Attract Much Attention.
Many Janesville people have shown much interest in the bit of the canvas, a piece of the rope and other souvenirs of the Reno fight sent by William W. Watt to a Janesville friend and now on exhibition in the west window of The Gazette office. Fully four hundred persons have stopped to look the relics over, and in order that all who wish to look at them, they will be left in the open window, after Sunday. Several offers have been made for the souvenirs, but Mr. Watt, showing that the interest in the battle of Johnson's bout did not end with the defeat of Jefferson on Monday last.

LAD THROWN UNDER AUTO AND INJURED
Six-Year-Old Son of Man Fell Under Father's Machine and Was Internally Injured.
[Special to this Gazette.]
Monroe, Wis., July 8.—Paul Patterson, the six-year-old son of Edgar Patterson, was thrown under his father's automobile at noon yesterday and received internal injuries. He was rushed to the LaSalle hospital and an examination made which showed that his liver was broken. The accident happened when Mr. Patterson was going home to dinner. The lad caught on the step on the left hand side of the machine and was caught in some way dragging him under. It was thought at first that the wheels ran over him, but it is now believed that this was not the case. Mr. Patterson could not see the boy when he fell under the step. The patient had a hemorrhage after arriving at the hospital.
No Trace of Body.
The harbor at Lake Michigan is being dragged daily and a careful watch maintained during the night for the body of Harry Shea, of this city, who was drowned in the lake with two others last Monday. A suit of clothes and a watch belonging to the victim furnished the only clue to drowning. The boy's father lives at Beloit. The relatives here are notified every evening of the fruitless search, which has been made.

Local News.
Mr. and Mrs. L. A. Woodie, Dr. and Mrs. G. S. Bowman and daughter and Miss Mae Mack left today for Lake Kegonsa where they will spend some time at the Woodie cottage.
Dr. W. F. Goddard, who has been here from Argyle on a visit to his parents, Mr. and Mrs. C. A. Goddard, has gone to Hayward, Wis., with the intention of buying land in the Round Lake country in Sawyer county.
Parker Reed took his departure yesterday for Los Angeles after a visit here at the home of H. L. Glouge. Mrs. Reed will continue her visit here.

Laughlin, subject: "The Modern Man and the Modern Bible." St. John's German Evangelical Lutheran Church—Cor. Mifflin St. and Pecos St. Rev. H. W. Fuchs, pastor. Sunday school 9:45; services 10:30. Monthly meeting of the Young People's Society in the afternoon.

FIFTY FRIENDS HONOR AGED LADY ON HER 77TH BIRTHDAY
Mrs. Olive Finch of East La Prairie Were Surprised Yesterday by a Large Party of Friends.
[Special to this Gazette.]
East La Prairie, July 8.—Fifty friends of Mrs. Olive Finch surprised her Friday and helped her celebrate her seventy-seventh birthday. As she had been very ill, the party was a surprise to her. She is a very old lady, and has been very much afflicted with rheumatism and other ailments. She is now, however, feeling much better and is able to enjoy her life.

Slit Hat Temperature.
Men who wear slit hats know that the temperature inside the hat is much higher than outside, but it has remained for a French physician to measure the difference. He has discovered that when the thermometer registers 90 degrees in the shade in the outer air it stands at 108 degrees in his slit hat, and that when it is 68 degrees outside it is 88 inside. From these differences he concludes that the unusual heat causes many nervous troubles.

CONSTIPATION
MAY BE PERMANENTLY OVERCOME BY PROPER PERSONAL EFFORTS WITH THE ASSISTANCE OF THE ONE TRULY BENEFICIAL LAXATIVE—SYRUP OF FIGS AND ELIXIR OF SENNA.
WHICH ENABLES ONE TO FORM REGULAR HABITS DAILY, SO THAT ASSISTANCE TO NATURE MAY BE GRADUALLY DISPENSED WITH WHEN NO LONGER NEEDED AS THE BEST OF REMEDIES. WHEN REQUIRED ARE TO ASSIST NATURE AND NOT TO SUPPLANT THE NATURAL FUNCTIONS WHICH MUST DEPEND ULTIMATELY UPON PROPER NOURISHMENT, PROPER EFFORTS AND RIGHT LIVING GENERALLY.
TO GET ITS BENEFICIAL EFFECTS ALWAYS BUY THE GENUINE SYRUP OF FIGS AND ELIXIR OF SENNA MANUFACTURED BY THE
CALIFORNIA FIG SYRUP CO.
FOR SALE BY ALL LEADING DRUGGISTS ONE SIZE ONLY—PRICE 50¢ A BOTTLE

VETERANS' SESSION VERY INTERESTING TO WHOLE STATE
Gathering of the United Spanish War Veterans in Janesville Next July Creates Much Talk.
Janesville business men are much interested in the plan to hold the thirteenth annual convention of the United Spanish War Veterans in Janesville. Few knew that there was any possibility of the convention being held in Janesville and now the general sentiment is that it must be made a celebration of the Fourth long to be remembered. Janesville has an enviable reputation as an entertaining city and when the vote of the convention at St. Albany awarded the convention to Janesville the members of the different delegations assumed the thirteenth annual convention would be held here in full force next year. There are some eighteen hundred members of the United Spanish War Veterans in Wisconsin, and they belong to the different camps, the majority of them in the southern portion of the state. This means that there will be nearly a thousand veterans here alone aside from the others who will attend for the fun that is sure to follow. It is probable that the convention will open on Monday, July 2 and continue through the fifth making three days in all. Plans are already being formed for making the Fourth one of the biggest days ever seen in the southern part of the state. It has been suggested that the local camp arrange for a sham battle on the Fourth which would follow a parade in the morning. That the members of the First regiment of National Guard be invited to attend as well as the Milwaukee battery and cavalry troop and possibly a battery and troop of cavalry from the regular army stationed at Ft. Sheridan. This would mean the biggest military display in Janesville since the civil war days. It would also mean that from Monday morning until after the Fourth there would be thousands of people in the city making it the biggest gathering the city has ever had. The Harry L. Clifford Camp of the United Spanish War Veterans, who will be the hosts at the convention, will begin their plans at once and prominent citizens have promised their aid both financially and otherwise to make the affair a success. Aside from the Dept. Commander Edward S. Foster being named the local camp was also honored by the election of Carl Buchholz as dept. adjutant, John C. Kalbrener as department quartermaster, Albert Nott as deputy inspector and Bert Hill as departmental aid.

DR. ST. JOHN HEADS POLICE COMMISSION
Consideration of the Maxfield Charges Against Mayor and Chief Postponed Till Monday Night.
The fire and police commission, at a meeting held at the Merchants & Savings bank yesterday afternoon, named Dr. J. W. St. John to succeed W. S. Jeffris as president and re-elected Claude J. Hendricks as secretary. The other members of the board are Mr. Jeffris, Geo. D. Simpson, and George Kimball. Consideration of the charges filed against Mayor Carl and Chief of Police Appleby by City Attorney H. L. Maxfield was postponed until Monday evening at half past seven o'clock.
The charges are concerned with a certain resort on North cadamy street which is alleged to have been operated with the knowledge of the city and have been brought into court and instructed to hear the city. It is claimed that the Mayor gave the proprietors permission to remain in the city, under certain conditions, until the period for which rent had been paid in advance should expire and that the chief was derelict in duty in not driving the people out, anyway and regardless.
The fire and police commission has no jurisdiction over the Mayor and could do nothing more than make recommendations to the common council with reference to him. In view of the known circumstances it is hardly likely that the hearing of the charges will result in any action against either official.

MONTEAL AND QUEBEC
A veritable deluge of luxuriant railroad pamphlets has been issued by the Grand Trunk Railway System to proclaim amongst tourists the glories of the cities of Montreal and Quebec. The brochure is beautifully printed and generally arranged in the artistic style of earlier days, when the ornamentation of a volume was regarded as an important incident to its representation or reading matter. It gives an interesting description of the two most interesting cities in Canada, with many illustrations from photographs. Sent free to any address, apply to E. G. 41461, First A. G. P. A., 917 Merchants Loan & Trust Building, Chicago.

ST. JOHN'S ENGLISH EV. LUTHERAN CHURCH—Corner South Jackson and Center streets. Sunday school at 9:45; morning services 11:00 a. m.; sermon by Rev. John Keeley of Milwaukee; Luther League 6:30. No evening service.

St. Mary's Roman Catholic church—First mass, 8:00 a. m.; second mass 10:00 a. m.; vespers and benediction, 7:30 p. m.; Rev. Wm. A. Goebel, pastor.

St. Patrick's Roman Catholic church—corner of Cherry and Holmes streets. Dean E. J. Kelly, pastor; Rev. James J. McGinnity, assistant pastor. Residence at 315 Cherry street. First mass, 7 a. m.; second mass, 9 a. m.; third mass, 10:30 a. m.; vespers and benediction, 7:30 p. m.

Church of the United Brethren in Christ—Corner Milton and Prospect avenues. L. A. McIntyre, pastor. Bible school 10 a. m.; preaching services 11 a. m.; evening service at 7:30. Special illustrated service, stereoscopic pictures will be shown. All are welcome. Services every Lord's day all summer.

St. Paul's Episcopal church, Rev. J. W. Laughlin, minister. 9:45 a. m. morning prayer, 10:30 a. m. morning service, 7:30 p. m. evening service. Subject: "The Power and Sublimity of Little Things." July 24th, in Methodist church, sermon by Rev. J. C. Hazen, subject: "The Modern Spirit and the Christian." July 31, in Congregational church, sermon by Rev. J. W. Laughlin, subject: "The Modern Man and the Modern Bible." St. John's German Evangelical Lutheran Church—Cor. Mifflin St. and Pecos St. Rev. H. W. Fuchs, pastor. Sunday school 9:45; services 10:30. Monthly meeting of the Young People's Society in the afternoon.

AN OFFICIAL REPORT.
The following report was sent by a subordinate inspector to his chief in the telephone service. It concerned a faulty house connection: "Found wire with no outside outside. Put inside wire outside and outside inside. Need more outside for inside."—Youth's Companion.

USELESS.
"Can't I sell you a dictionary?" asked the outstretched book agent.
"No," answered the man with the hunted look in his eye; "I don't need one. I married a college graduate."

THAT GROUND-HOG PROPHECY.
The ground-hog prophecy usually has a grain of truth in it. Six weeks after Candlemas is St. Matthew day. If the good saint comes and "Buds lay he will break it, and if there is no ice he will make it."

\$100 Reward, \$100.
The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all the ages, and that is Cancer. Our Cancer Cure is the only positive cure now known to the medical fraternity. Cancer, being a constitutional disease, requires a constitutional treatment. Our Cancer Cure is taken internally, acting directly upon the blood and inducing purification of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in its struggle. Our Cancer Cure has no such fault as the curative powers that they offer cure now known to the medical fraternity. Cancer, being a constitutional disease, requires a constitutional treatment. FORTY YEARS AGO

JANESVILLE DAILY GAZETTE, July 8, 1870.—The money order business at the postoffice for the week ending July 3rd has been as follows: Number of orders issued, 91; amount, \$1,369.49; number of orders paid, 55; amount, \$1,280.17.

Marshall Cutts has a paid force at work cutting off the dirt which has accumulated on Main street. What a pleasant recreation that would be for the inmates of the Johnson House, who are so much in need of bodily exercise.

Mr. Ben Bingham, of Koshkonong, took a prize of a gun valued at \$50, at the annual State shooting match held in Milwaukee last Thursday. The score was thirteen birds out of fifteen, twenty-one yards rise, eighty yards boundary. A later report states that Mr. Bingham took the first prize on double rifles, killing 13 out of 14 birds.

The committee on bridge signs the thing down to an alderman when they ordered two signs which have recently been put up on Milwaukee street bridge. They read thus: "\$5.00 fine for riding, driving or leading any horse or other animal on or across this bridge faster than a walk." Ladies leading poodle dogs will please make note of the fact.

Last week a large pane of photo glass in one of the windows of Curtha's drug store was broken by a sudden change in temperature. The day had been intensely hot, and towards night a sudden windstorm came up, cooling the air so rapidly that the glass broke from contraction.

NEWS FROM THE SUBURBS

SOUTH HARMONY.—Many from here spent the Fourth in Milton. Mr. and Mrs. J. A. Webber spent last Monday in Fort Atkinson. They took the trip in their new auto. Miss Maude Howarth is attending summer school in Whitewater. Mrs. J. C. Auld and daughter of Janesville spent a few days of last week at the home of John Godfrey. Mrs. L. Parker and little son of Chicago are visiting at the home of her sister, Mrs. C. H. Mosher.

Brookfield.—Bro. J. H. Jensen's subject at the Presbyterian church next Sunday morning will be, "A Ride in the Cab of Life." Union service in the evening in the city park at seven o'clock. Dr. H. J. Horns spent Thursday in Orfordville.

Miss Bloomfield, superintendent of Garfield hospital, Chicago, has been the guest of Miss Charlotte Widdowson, at the home of Mrs. Jos. Thompson the past week, a part of the time being spent at Decatur Parks. Mrs. C. A. Stebbins is laid up with a lame knee, caused by a dislocation on the evening of the Fourth while at Albany.

The Board of Review will meet in the city council chamber on Thursday, July 14, at 9:30 o'clock. C. C. Stone was taken suddenly ill on Thursday afternoon but is somewhat better today.

The remains of Mrs. M. M. McNeil arrived this noon from Watonsau. The funeral will be held at the home on Saturday at one o'clock, conducted by Rev. R. J. Jensen, pastor of the Presbyterian church.

Mrs. Dwight Pierce of North Lamp, Neb., who was the guest of Mr. and Mrs. M. H. Williams, returned to her home on Thursday.

BROOKHEAD.—Bro. J. H. Jensen's subject at the Presbyterian church next Sunday morning will be, "A Ride in the Cab of Life." Union service in the evening in the city park at seven o'clock. Dr. H. J. Horns spent Thursday in Orfordville.

Mrs. Dwight Pierce of North Lamp, Neb., who was the guest of Mr. and Mrs. M. H. Williams, returned to her home on Thursday.

SOUTHWEST LIMA.—Southwest Lima, July 7.—Mrs. O. W. Bennett and son visited Mr. and Mrs. Julius Trutt in Whitewater Sunday. Mr. and Mrs. Pat Conroy of Madison, spent the Fourth in this vicinity. Mr. and Mrs. Will Chamberlain and son visited Mrs. Lackner Sunday.

Julius and Paul Kraus have just returned home after spending several months in Dakota.

Miss Fanning gave a dance in his new barn last Thursday evening. Knott & Hatch of Janesville furnished the music and a large crowd was present.

Fred Isbell is assisting Mrs. Lackner with his farm work.

Chas. Frank has been helping Fred Isbell with his hay.

Mr. and Mrs. Jas. Gouffrey and children were Janesville visitors recently. Mr. and Mrs. Jas. Watson were in Whitewater Tuesday morning.

The platform dance which was held in Mr. Zellman's grove Monday evening was attended by a very large crowd and a good time is the report of those who attended. Refreshments were served during the evening; good music was furnished by Chas. Shultz.

DELOIT.—Deloit, July 8.—Mr. and Mrs. John Martin and family and Mr. and Mrs. Robert McCrea and family spent the Fourth with Mr. and Mrs. Arthur Jackson.

Miss Minnie Dehling is home enjoying her summer vacation.

Charles Merrill of California spent last Saturday with his niece, Mrs. David Thorne.

There were about forty relatives and friends present on the Fourth at Riverhead Farm. Those present were: Mr. and Mrs. Clyde Gates and family, Mr. and Mrs. Joseph Atwood, Mr. and Mrs. Philip Atwood and son Willis, Mr. and Mrs. James Atwood and son Philip, all of Rockford; Mrs. Mary Bartholomew of Rockford, Mr. and Mrs. W. H. Eldredge, Mr. and Mrs. Fred Eldredge and family, George Goslow, Mr. Austin, and Mr. and Mrs. Lorenzo Haug, all of Deloit.

Photographs on Guard.

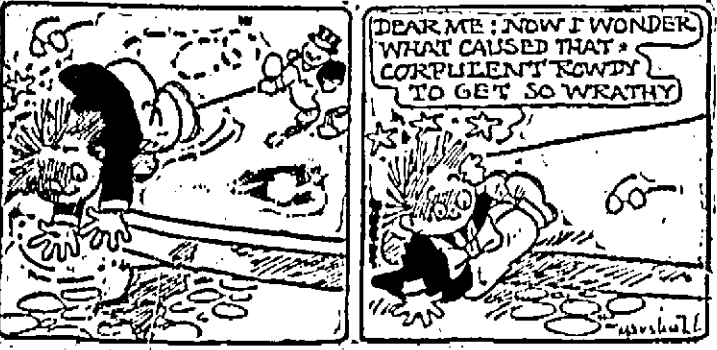

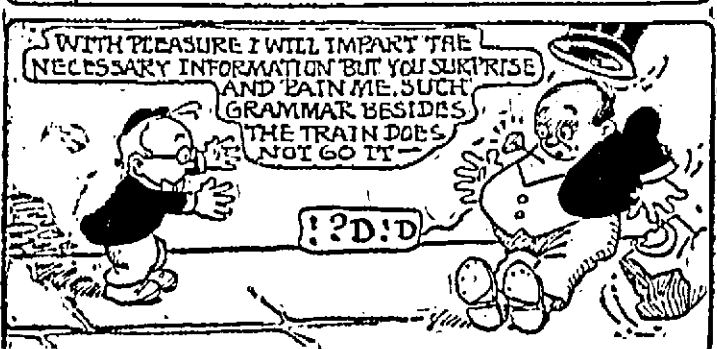

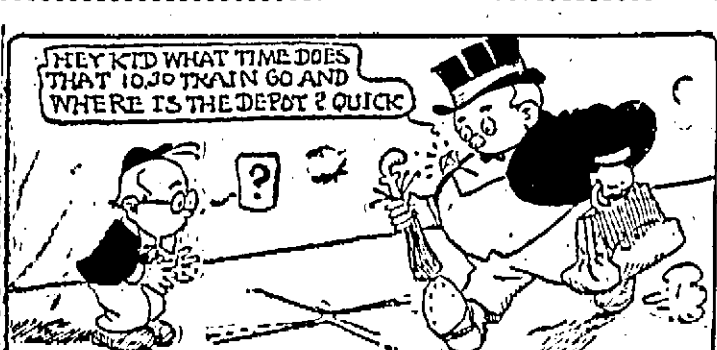

It is not improbable that in war times some form of photography will be used to detect the oncoming war eagle of a flying battleship, just as photos are made of dark and bright stars that cannot be detected by the eye and the most powerful telescope. Sentinels would look every few seconds at the photographic plates instead of at the sky.

Southwest Lima, July 7.—Mrs. O. W. Bennett and son visited Mr. and Mrs. Julius Trutt in Whitewater Sunday. Mr. and Mrs. Pat Conroy of Madison, spent the Fourth in this vicinity. Mr. and Mrs. Will Chamberlain and son visited Mrs. Lackner Sunday.

SEASIDE SPORT.

It's a jolly old game you have oft played before
 When bathing you go with hilarious din;
 The sea nettle chases you out on the shore,
 And the merry mosquito will chase you back in,
 Find another bath.

WILLIE WISE.

young man who had just graduated, "You can't inherit intelligence." "I know it, father—at least I can't unless I inherit from my mother's side."

The Main Objection.

"No," said the principal constituents with a shudder, "we can never vote for that man for the city council. He would be suspected from his very occupation. He is a gardener." "What has that to do with it?" asked the candidate's friend. "Naturally, he would take to grafting."

He Knew It. My son, said the father of the

PLAY BALL!—See ad elsewhere.

Bad Teeth Hinder Nutrition.

Medical inspection of 1,000 five-year old children in Surrey, Eng., revealed the fact that those who had several decayed teeth weighed on an average of 24 pounds less than those who had sound teeth.

WHY BE FAT?

Hot weather takes away the strength and vigor of the body. Capricious, takes away the superfluous fat! Why be fat and suffer? Try this wonderful remedy, safe and reliable. What it has done and is doing for others, it will do for you. Information free. Your druggist or mailed in a plain, sealed package, postpaid on receipt of price, one dollar.

HOME MEDICINE CO. 2031 Michigan Ave. CHICAGO, ILL.

Why Our Tire Work Wears Better Than Others

There appears to be a widespread but erroneous opinion among Janesville auto owners that it does not pay to have an old tire retreaded.

Undoubtedly a great majority have good reasons for this belief. They have had experience with tires retreaded by out of town shops; jobs done by people who cared very little, if any, as to whether they ever did any more work for them or not; jobs pushed through with the sole idea of getting rich quick; jobs done with cheap stock and by inexperienced workmen. No wonder they don't give satisfaction.

A tire properly retreaded has all the old gum taken off clear down to the fabric, to the body of the tire. After this is done the fabric can be clearly seen and if there is the least sign of a weakness it should be remedied by removing the old weak fabric and putting in good new fabric in its place. If this is not done the tire is not repaired properly and cannot fail to give trouble sooner or later.

It costs no more to put in all this new fabric but we must do it if we want the tire to give satisfaction. TIRES REPAIRED BY US DO NOT BLOW OUT AS SOON AS THEY ARE PUT ON THE MACHINE BECAUSE WE HAVE REMOVED EVERY BIT OF WEAK FABRIC AND PUT IN GOOD NEW SEA ISLAND COTTON IN ITS PLACE. THAT'S WHY OUR RETREADS STAND UP AND WEAR. WE DO NOT TRY TO SAVE EXPENSE BY LEAVING ANY PART OF THE OLD TREAD ON. We cannot see the body of the tire without doing so and neither can any one else. If we cannot see the fabric we cannot tell its condition. That's why we take every last bit of the old tread off so we can be SURE. When you have a tire retreaded by us we make sure that there is not a weak spot in the tire before we apply the new tread. We examine every inch of the tire and it seldom happens that a weak spot escapes our notice. When such a thing does happen we make it right and it does not cost you a cent. Our aim is to give you more miles for less money than you can get from new tires.

You have nothing to lose and everything to gain by giving us a trial. Granting the possibility that the tire does not hold up, we will be the ones who stand to lose and not you. We do not intend to lose and do not expect to. We know the quality of our work and know that we will never have any reason to. We know that the work we do will not amount to one-half of what we will do next summer. We do not expect to get rich this summer, but we are banking on what we will do in the future. If we did not know that our work would give satisfaction and service we could not do this but we know from years of experience that we can and have given satisfaction.

Our work is done RIGHT.
 The rubber we use is RIGHT.
 Our prices are RIGHT.
 We are RIGHT here in town.
 You don't need to WRITE.

Wisconsin's Greatest Land Sale

A Wonderful Opportunity For Settlers and Investors to Secure Rich Farm Land in America's Greatest Dairy State

For

\$4.50 to \$20 PER ACRE ON EASY TERMS

The enormous Wisconsin land holdings of the lumber interests are now on sale and are rapidly passing into the hands of settlers and far-sighted investors. These rich lands, comprising over 500,000 acres, have been thrown on the market by the American Immigration Company of Chicago, Ill., at such low prices and on such easy terms that the whole country is aroused. The center of activity is in the famous Round Lake country, in Sawyer County, where 150,000 acres, the very crown of ROUND LAKE WISCONSIN FARM LANDS, is being cut up into farms.

The American Immigration Company owes the fact to all the lands they offer to sell.

The prices run from \$4.50 to \$20 per acre, depending on the value of the standing timber, location, etc.

The land is sold on ten years' time. The soil is rich and yields abundant crops. The amount of this land there is enough hardwood timber to pay for the farm. It is a country of abundant rainfall and the purest of water.

This is unquestionably the greatest cheap land opportunity of the century. Wisconsin land values are advancing by leaps and bounds.

The ROUND LAKE WISCONSIN FARM LANDS are going fast and the man who gets in at the ground floor price can make himself independent in five years. The time to act is NOW.

Free Books, Maps, and full information may be secured by addressing the local representative of the American Immigration Company.

STAMPS FRESCO DESIGN

Devise Paints Figures On Wall As It Is Rolled Over Lattar.

An apparatus that is said to beat anything else invented by a Maryland man, by means of it a design can be painted around the top of a wall in an infinitesimal fraction of the time required even to stencil it on. The device consists of a pair of rollers set close together in a frame with a handle on it. The rollers are removable, and one of them is adapted to contain paint, having a wire gauze surface through which the paint filters onto the forward rollers, which is covered with water.

The prices run from \$4.50 to \$20 per acre, depending on the value of the standing timber, location, etc.

Kind-Hearted.

It was a sweet sight. Private Jones was feeding his horse with the clumps of sugar. There was no stint.

"The colonel stood by, visibly affected."

"I'm very pleased to see you so kind to your horse, Jones," he said at length. "You will be sure to find that the animal appreciates your thoughtfulness. I shall remember this."

Private Jones touched his hat, and the colonel dismounted. Then Private Jones wiped his honest brow, and turned to a brother soldier.

"Well, if that ain't a bit of bloomin' heck!" he murmured. "Why, the beast (drew me this mornin', and I'm tryin' to give him the right 'treatment'!"

PAINT SUPPLIED AUTOMATICALLY.

Freed with the design that it is desired to apply. The design can be varied by having a number of different rollers with separate figures on them. As the apparatus is pushed over the wall the forward roller takes up paint from the rear roller and impresses the imprint where it passes. As will quickly be seen, the operation is a rapid one and the design thus made is sure to be accurately laid on. The vertical type of painting can use the device successfully.

The great volume of advertising carried in these columns is due to the great circulation of "The Gazette," 5300 homes receive "The Gazette" daily and from this large number of homes many people are looking for just the things advertised each day.

Why?

We put this question very plainly to the editor of Always in Good Humor: Why will a girl who lumps on account of a painful corn always claim that her kiosk is sprained?

PHONOGRAPH HORN

Has Sound Reflector by Which Volume of Sound is Regulated.

A different kind of phonograph horn has been designed by an Arkansas man, and by means of it the sound from the cabinet cannot only be regulated, but can be regulated to an extent not possible with most other types. It will play the sound-conveying tube runs off from the center of the box as usual, but at the end is another joint, which revolves on the first, and at the top of which is a resonator, or hemispherical megaphone, with a sound reflector inside. This sound reflector is adjustable and can be moved backward or forward, thus making the volume of sound greater or less, as the case may be. The diaphragm in the resonator has the tendency, of course, to magnify the sound, and with this attachment set at its highest pitch a photograph can be played in the open air and be distinctly heard with a large number. The upper end of the sound-conveying tube being movable, the mouth of the horn may be turned in any direction.

HORN TURNS ANY DIRECTION.
